Decades of research have demonstrated that the parent-child dyad and the environment of the family"which includes all primary caregivers"are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build

and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Becoming a Marriage and Family Therapist is a practical "how to" guide designed to help trainee therapists successfully bridge the gap between classroom and consulting room. Readers will learn how to apply empirically-based methods to the core tasks of therapy in order to improve competency, establish effective supervision, and deliver successful client outcomes. A practical guide to improving competency across the core tasks of therapy, based on over 40 years of observation and teaching by an internationally acclaimed author Presents treatment protocols that show how to apply therapy task guidelines to a range of empirically-supported marriage and family treatments Provides extended coverage on assessing and beginning treatment with crisis areas such as suicidal ideation, and family violence with children, elders, and spouses Suggests how supervisors can support trainees in dealing with crisis and other challenging areas, to build competence and successful delivery

Published on the occasion of the exhibition "The triumph of watercolour: the early years of the Royal Watercolour Society 1805-55" : from 2 February-24 April 2005 at Dulwich Picture Gallery, and from 13 May-7 August 2005 at Whitmore Art Gallery, University of Manchester.

The landmark exploration of economic prosperity and how the world can escape from extreme poverty for the world's poorest citizens, from one of the world's most renowned economists Hailed by Time as one of the world's hundred most influential people, Jeffrey D. Sachs is renowned for his work around the globe advising economies in crisis. Now a classic of its genre, The End of Poverty distills more than thirty years of experience to offer a uniquely informed vision of the steps that can transform impoverished countries into prosperous ones. Marrying vivid storytelling with rigorous analysis, Sachs lays out a clear conceptual map of the world economy. Explaining his own work in Bolivia, Russia, India, China, and Africa, he offers an integrated set of solutions to the interwoven economic, political, environmental, and social problems that challenge the world's poorest countries. Ten years after its initial publication, The End of Poverty remains an indispensable and influential work. In this 10th anniversary edition, Sachs presents an extensive new foreword assessing the progress of the past decade, the work that remains to be done, and how each of us can help. He also looks ahead across the next fifteen years to 2030, the United Nations' target date for ending extreme poverty, offering new insights and recommendations.

This edition, revised and updated for the 2003-2004 season, features an easy-to-understand expanded format, new statistics, an index of every retired player since 1917, a detailed breakdown of all the hot prospects, and information on every current player. Photos throughout.

An engaging way to cover ethical choices in counseling settings This guide will take readers on a wide-ranging tour of ethics—covering both the theoretical and practical aspects of providing sound, ethical care. In addition to invaluable information, this book provides access to chapter objectives, candid case studies, stories from both students and counselors, questions for reflection, and student discussion activities. Coverage goes beyond a laundry-list approach to rules of conduct, and plumbs the philosophical roots embedded in today's professional codes. Engaging case studies explore how ethical rules and principles apply in various real-world settings and specialties. After covering ethical philosophies, codes, and standards, Becoming an Ethical Helping Professional further discusses: The helping relationship from beginning to end Confidentiality and trust Boundaries, roles, and limits Assessment: peering through the right lens Research, efficacy, and competence John & Rita Sommers-Flanagan have written an exceptional resource that considers both the process and the content of making ethical choices as a counselor or psychotherapist.
