The Yamaha Phazer MTX, since its introduction, has remained as since Day One. Over its production years however, the little wonder sled has received a few reliability updates (not that the Phazer had any serious issues), but what was designed and built almost a decade ago, remains as is. It is reliable and does not beckon for a game change.

There's still the Yamaha Phazer MTX, which brings a little sanity to the big horsepower-dominated mountain segment. The four-stroke Phazer MTX isn't just Yamaha's entry-level sled; it might just be considered the entry-level snowmobile for the entire mountain lineup.

Yamaha Phazer MTX Still an ideal entry-level mountain sled ...

Headed towards my local Yamaha store and got a deal on a new Phazer MTX together with a spare belt and a cover. Just picked up from the dealer. Got rid of the windshield right away and mounted the licence plate on the side of the tunnel (blurred) Like the narrow look of the Phazer mountain One of the first time out in the snow Some urban riding =)

Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques.

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City –based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs. • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist. Photographic Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Casteel

YFM660F Grizzly 660 (2002-2008)

This is the story of the Japanese motorcycle industry which started from scratch after World War II and grew to make most of the motorcycles in existence today. It is told in a decade-by-decade narrative treatment commencing in the early 1950s and running through to the 1990s.

A man who has spent his professional life measuring the flow of northern rivers, climbed Alaska's Mount McKinley, was a member of both Yale University and Maine University's scientific expeditions to the Antarctic, guided a film crew documenting the late Robert Kennedy's ascent of Mount Kennedy, and crossed the St. Elias mountain range is certainly no stranger to the cold! In Winter Wise, Monty Alford shares his passion for, and deep knowledge of traveling in ice and snow. In addition to describing the scientific characteristics of winter weather and how to prepare for it with proper clothing, food, and conditioning, Winter Wise provides step-by-step instructions on building every conceivable winter survival instrument, from sleds to shelters to his own personal invention, the YuCan stove. This book is an essential resource for snowmobilers, cross-country skiers, ski patrol and rescue personnel, and all travelers in winter climates.

Drago loves the library. The smell of the books, the feel of the pages and of course what is on each and every page. Join him as he has one of the best experiences of his life.

Assembly Language for x86 Processors, 6/e is ideal for undergraduate courses in assembly language programming and introductory courses in computer systems and computer architecture. Written specifically for the Intel/Windows/DOS platform, this complete and fully updated study of assembly language teaches students to write and debug programs at the machine level. Based on the Intel processor family, the text simplifies and demystifies concepts that students need to grasp before they can go on to more advanced computer architecture and operating systems courses. Students put theory into practice through writing software at the machine level, creating a memorable experience that gives them the confidence to work in any OS/machine-oriented environment. Proficiency in one other programming language, preferably Java, C, or C++, is recommended.
