Jupiter and Saturn will appear closer to each other in the night sky on December 21 than they have been for nearly 800 years, astronomers have said. Having been 'nearing' each other since the ...

Summer's finally here, and Derek Fallon is looking forward to pelting the UPS truck with water balloons, climbing onto the garage roof, and conducting silly investigations. But when his parents decide to send him to Learning Camp, Derek's dreams of fun come to an end. Ever since he's been labeled a "reluctant reader," his mom has pushed him to read "real" books--something other than his beloved Calvin & Hobbes. As Derek forges unexpected friendships and uncovers a family secret involving himself (in diapers! no less), he realizes that adventures and surprises are around the corner, complete with curve balls. My Life as a Book is a 2011 Bank Street - Best Children's Book of the Year.

Enjoy! Easy Puzzles provides seniors with hours of relaxing puzzle fun. Seniors will enjoy the large print which makes the text easy to read, and the solving experience very pleasant. There are several different kinds of easy, fun puzzles in this book: 1) Word Searches: Find hidden words in a letter grid. Each word search puzzle has an entertaining theme. 2) Spot the Odd One Out: The solver finds the one image that is slightly different from the rest. 3) Crosswords: There are several large print crosswords in this book, each with a unique theme. 4) Find the Differences: In these puzzles, the solver finds the differences between the two pictures. 5) Bonus Puzzles: In this section, there are a variety of puzzles for the solver to enjoy from unscrambling words, to number questions. All together, Enjoy! Easy Puzzles is a great book that provides many easy, fun puzzles for hours of fun, focus and relaxation. Key Summary Details: Level: Easy Solver: Adult Print: Large Print Types of Puzzles: Spot the Odd One Out, Word Seek, Crossword, Find the Differences

On December 26, 2015, the Laser Interferometer Gravitational-Wave Observatory (LIGO) detected gravitational waves generated from merging black holes for the first time in human history. Through an engaging, easily accessible approach, the origins, dynamics, and ultimate fate of black holes are thoroughly unraveled so that students without a scientific background can grasp complex physics theories. This book supports the Next Generation Science Standards' emphasis on scientific collection and analysis of data and evidence-based theories by discussing the methods research universities and space agencies use to explore black holes.

"Fascinating . . . memorable . . . revealing . . . perhaps the best of Carl Sagan's books."--The Washington Post Book World (front page review) In Cosmos, the late astronomer Carl Sagan cast his gaze over the magnificent mystery of the Universe and made it accessible to millions of people around the world. Now in this stunning sequel, Carl Sagan completes his revolutionary journey through space and time. Future generations will look back on our epoch as the time when the human race finally broke into a radically new frontier--space. In Pale Blue Dot, Sagan traces the spellbinding history of our launch into the cosmos and assesses the future that looms before us as we move out into our own solar system and on to distant galaxies beyond. The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race. "Takes readers far beyond Cosmos . . . Sagan sees humanity's future in the stars."--Chicago Tribune

Engage scientists in grades 4Ð6 and prepare them for standardized tests using Just the Facts: Earth and Space Science. This 128-page book covers concepts including rocks and minerals, weathering, fossils, plate tectonics, earthquakes and volcanoes. Other topics include oceans, the atmosphere, weather and climate, humans and the environment, and the solar system. It includes activities that build science vocabulary and understanding, such as crosswords, word searches, graphing, creative writing, vocabulary puzzles, and analysis. An answer key and a standards matrix are also included. This book supports National Science Education Standards and aligns with state, national, and Canadian provincial standards.

Astronomy is written in clear non-technical language, with the occasional touch of humor and a wide range of clarifying illustrations. It has many analogies drawn from everyday life to help non-science majors appreciate, on their own terms, what our modern exploration of the universe is revealing. The book can be used for either a one-semester or two-semester introductory course (bear in mind, you can customize your version and include only those chapters or sections you will be teaching.) It is made available free of charge in electronic form (and low cost in printed form) to students around the world. If you have ever thrown up your hands in despair over the spiraling cost of astronomy textbooks, you owe your students a good look at this one. Coverage and Scope Astronomy was written, updated, and reviewed by a broad range of astronomers and astronomy educators in a strong community effort. It is designed to meet scope and sequence requirements of introductory astronomy courses nationwide. Chapter 1: Science and the Universe: A Brief Tour Chapter 2: Observing the Sky: The Birth of Astronomy Chapter 3: Orbits and Gravity Chapter 4: Earth, Moon, and Sky Chapter 5: Radiation and Spectra Chapter 6: Astronomical Instruments Chapter 7: Other Worlds: An Introduction to the Solar System Chapter 8: Earth as a Planet Chapter 9: Cratered Worlds Chapter 10: Earthlike Planets: Venus and Mars Chapter 11: The Giant Planets Chapter 12: Rings, Moons, and Pluto Chapter 13: Comets and Asteroids: Debris of the Solar System Chapter 14: Cosmic Samples and the Origin of the Solar System Chapter 15: The Sun: A Garden-Variety Star Chapter 16: The Sun: A Nuclear Powerhouse Chapter 17: Analyzing Starlight Chapter 18: The Stars: A Celestial Census Chapter 19: Celestial Distances Chapter 20: Between the Stars: Gas and Dust in Space Chapter 21: The Birth of Stars and the Discovery of Planets outside the Solar System Chapter 22: Stars from Adolescence to Old Age Chapter 23: The Death of Stars Chapter 24: Black Holes and Curved Spacetime Chapter 25: The Milky Way Galaxy Chapter 26: Galaxies Chapter 27: Active Galaxies, Quasars, and Supermassive Black Holes Chapter 28: The Evolution and Distribution of Galaxies Chapter 29: The Big Bang Chapter 30: Life in the Universe Appendix A: How to Study for Your Introductory Astronomy Course Appendix B: Astronomy Websites, Pictures, and Apps Appendix C: Scientific Notation Appendix D: Units Used in Science Appendix E: Some Useful Constants for Astronomy Appendix F: Physical and Orbital Data for the Planets Appendix G: Selected Moons of the Planets Appendix H: Upcoming Total Eclipses Appendix I: The Nearest Stars, Brown Dwarfs, and White Dwarfs Appendix J: The Brightest Twenty Stars Appendix K: The Chemical Elements Appendix L: The Constellations Appendix M: Star Charts and Sky Event Resources

What does it take to be a good school principal? No two principals work exactly the same way, but research shows that effective principals focus on a core set of factors critical to fostering success among all students. In this second edition of Qualities of Effective Principals, James H. Stronge and Xianxuan Xu delineate these factors and show principals how to successfully balance the needs and priorities of their schools while continuously developing and refining their leadership skills. Throughout the book, the authors provide practical tools and extensive research that will help principals * Assess, exhibit, and harness instructional leadership to meet a school's goals. * Foster and sustain an effective school climate for learning. * Select, support, and retain high-quality teachers and staff. * Manage school resources effectively and efficiently. * Create, maintain, and strengthen internal and external community relationships. * Define their role in student achievement. This book also includes practical skills checklists, along with quality indicators and red flags for effective leadership. Qualities of Effective Principals, 2nd Edition, is an excellent resource for both experienced and new principals committed to developing and leading strong schools that help all students succeed.

Each chapter in this fun and informative book is packed with puzzles, games, facts and experiments! Find out all about spaceships and satellites, astronauts, the solar system and the universe, and have lots of fun with the Punk Science team at the same time! Published in association with the Science Museum.

The definitive guide to the therapeutic Japanese practice of shinrin-yoku, or the art and science of how trees can promote health and happiness Notice how a tree sways in the wind. Run your hands over its bark. Take in its citrusy scent. As a society we suffer from nature deficit disorder, but studies have shown that spending mindful, intentional time around trees--what the Japanese call shinrin-yoku, or forest bathing--can promote health and happiness. In this beautiful book--featuring more than 100 color photographs from forests around the world, including the forest therapy trails that criss-cross Japan--Dr. Qing Li, the world's foremost expert in forest medicine, shows how forest bathing can reduce your stress levels and blood pressure, strengthen your immune and cardiovascular systems, boost your energy, mood, creativity, and concentration, and even help you lose weight and live longer. Once you've discovered the healing power of trees, you can lose yourself in the beauty of your surroundings, leave everyday stress behind, and reach a place of greater calm and wellness.

You're holding a new kind of professional development tool called a Strategic Teacher PLC Guide. Designed in partnership with more than 75 schools, Strategic Teacher PLC Guides make the important work of bringing high-impact, research-based instructional practices into every classroom easier than ever before. Each guide focuses on one strategy from the best-selling ASCD book The Strategic Teacher: Selecting the Right Research-Based Strategy for Every Lesson and serves as a complete professional development resource for a team of teachers (or professional learning community) to learn, plan, and implement the strategy in their classrooms.This guide focuses on Reading for Meaning, a reading and reasoning strategy that helps students understand new ideas, make inferences, and support their thinking with evidence. The strategy is designed around research showing that proficient readers use a specific set of thinking skills to build deep understanding of the texts they read and apply those skills in three distinct phases: before reading, during reading, and after reading. Reading for Meaning gives all students the opportunity to practice this three-phase approach by* Using simple statements to preview and predict before reading.* Actively searching for relevant evidence during reading.* Reflecting on and synthesizing both their learning and their thinking process after reading.This PLC Guide takes you and your colleagues on a "guided tour" of Reading for Meaning, enabling you to* Learn how Reading for Meaning builds reading, reasoning, and problem-solving skills.* Experience a model lesson using the Reading for Meaning strategy and learn from sample lessons and planning forms designed by other teachers.* Plan a complete Reading for Meaning lesson for your classroom.* Reflect deeply on your lesson to refine and expand your use of the strategy.* Examine student work at various levels of proficiency and use your findings to plan next steps in building students' reading, thinking, and comprehension skills.Harvey F. Silver, president of Silver Strong & Associates and Thoughtful Education Press, is a nationally recognized presenter and professional development specialist. He has collaborated with Richard Strong and Matthew Perini on several best sellers in education, including ASCD's The Strategic Teacher and Thoughtful Education Press's award-winning Tools for Promoting Active, In-Depth Learning. Susan C. Morris, an experienced consultant and former classroom teacher, develops practical applications for teachers, students, and parents in the areas of differentiated instruction, brain-based research, experiential learning, and curriculum design. Victor Klein, a former building-level administrator, has been a Silver Strong & Associates trainer for 25 years. He is an expert in professional learning communities,

administrative training, and unit and lesson design.
