“To bear witness means several things. First, it means you are aware of the experiences of others, and you have close enough relationships to witness the things persons of color experience that whites do not. To witness something, you have to actually be there. And to be there, you have to be around people experiencing it.

Bearing witness is an act of compassion, of empathy, of solidarity, and of justice. Bearing witness is holy. Humanity is at its most powerful and transformative when we experience the truth of one another. Some of you may be thinking to yourselves that you don't need to see pain up close and personal to feel empathetic or to understand injustice.

Bearing Witness . To bear witness to an individual, an event, or an object, gives it meaning and context to the rest of humanity. To bear witness, simply, is to let it exist.

This book seeks to pay tribute to the Swiss people's unprecedented solidarity with the Armenians in their most trying times. After providing a comprehensive overview of Armenian history and the events leading to the massacres and genocide perpetrated against the Armenians, the author explains how it came to be that the Swiss people took a stand alongside their Armenian brothers and sisters in the Christian faith. A stark contrast emerges between the merciless policy of annihilation implemented by the Ottoman Empire and the shining examples of selflessness provided by aid workers from Switzerland, who - as doctors, nurses and educators - gave the Armenian people formidable assistance in the most adverse of circumstances. Two examples, among many, should be mentioned - Sister Beatrice Rohner (1876-1947), from Basel, who suffered a mental breakdown following all the horror she experienced as a teacher and director of an orphanage, and Jakob Kunzler (1871-1949), from Walzenhausen. Having been acquainted with Kunzler, Carl Lutz found him to be a great inspiration for his own heroic efforts saving Jews in Budapest in 1944. The Author of this book endows his Swiss 'witnesses for humanity' with a lively voice, without any loss of scholarliness, as is demonstrated by copious footnotes and references. His extremely wide-ranging research integrates previously unseen material from Swiss archives for the first time and forms the basis of this comprehensive work, which constitutes a significant enrichment of the subject.

What can we do to prevent more atrocities from happening in the future, and to stop the ones that are happening right now? That the World May Know tells the powerful and moving story of the successes and failures of the modern human rights movement. Drawing on firsthand accounts from fieldworkers around the world, the book gives a painfully clear picture of the human cost of confronting inhumanity in our day.

'In their discussion of torture, the contributors to this book write of what its victims cannot put into words and the work that has to be done with them to that end. Working with a victim's account of a traumatic experience goes much further than any debriefing technique would have us believe - above all, victims need someone to listen carefully to what they have to say; that person will be the first to offer a refuge for the pain of those who have no internal "shelter" of their own. The authors go on to discuss the kind of mental processing that can free victims from their unspeakable trauma, a trauma that has no framework in time nor words with which to express it. Under the skilful editorship of Andres Gautier and Anna Sabatini, this book asks of both psychoanalysts and politicians a question that goes right to the heart of their "impossible professions".- Rene Kaes, from the Foreword

Artists and humanists reflect upon the paradox of war.

Zen practitioner and non-profit community developer Bernie Glassman offers powerful teaching stories that illustrate ways of making peace one moment at a time. Each chapter focuses on an event or person and demonstrates how a particular peacemaker vow is put into practice. Through these stories and Glassman's personal testimony we come to understand the essence of peacemaking.

The responsibility to protect (R2P) is at a crossroads, the latest in a journey that is only ten years old. This book presents debates on the prevention of mass atrocities to R2P's normative prospects. The book addresses key questions as a way to inform and drive on-going conversations about R2P. Moving beyond well-rehearsed debates about the tensions and meanings around sovereignty in R2P practice, the book focuses on advancing the credibility of the preventive dimensions of R2P, whilst simultaneously examining the extent of R2P's current value-added in state decision making—especially for the 2011 actions in Libya and Côte d'Ivoire. Questions addressed include: Did the R2P framework of the 2005 World Summit Declaration intend to mould sovereignty, and if so how? Can R2P break or revert cycles of violence? How can one determine the appropriate duration and timing of the preventive and protective phases of R2P? Who/what should be the targets of preventive action, and how does this have an impact on R2P diplomacy? Under which conditions are particular policy tools likely to be effective? Which state and regional actors are best suited to using these tools? What are the barriers to successful preventive action—how can they be overcome? What capacities need to be built (at the national, regional, and international levels) in order to operationalize R2P's preventive agenda? Examining a wide range of countries, this work will be essential reading for students and scholars of international human
