On 7 September 1812 at Borodino, 75 miles west of Moscow, the armies of the Russian and French empires clashed in one of the climactic battles of the Napoleonic Wars. This horrific—and controversial—contest has fascinated historians ever since. The survival of the Russian army after Borodino was a key factor in Napoleon's eventual defeat and the utter destruction of the French army of 1812. In this thought-provoking new study, Napoleonic historian Alexander Mikaberidze reconsiders the 1812 campaign and retells the terrible story of the Borodino battle as it was seen from the Russian point of view. His original and painstakingly researched investigation of this critical episode in Napoleon's invasion of Russia provides the reader with a fresh perspective on the battle and a broader understanding of the underlying reasons for the eventual Russian triumph.

In the French collective memory as well as in its subconscious, the Berezina conjures up pictures of disaster, immense and without precedent. It symbolises the irremediable collapse of an army in the Bloom of defeat and total destruction. Popular or romantic imagery has pictured this event in its darkest, most terrible and most frightening aspects. Like an abysmal grave for the Grande Armée, the Berezina marks the end of French domination of the European continent, a hegemony which had already been contested on the Iberian Peninsula by the English and their Spanish and Portuguese allies. Soldiers no longer obeyed their sergeants or officers, if there were any left. There were no longer any battalions, any regiments, or any divisions. It was no longer an army ; it was a body aith neither skeleton nor brain. It was moribund and it took ils time dying; the Berezina finished it off. "C'est la Berezina !" This expression is nowadays so well anchored in the French language that it brooks no contestation, no reflection. It alone combines the whole breakdown and collapse of a situation. As they say : "C'est la Bérezina !" First of all, in the eyes of the enemy, this battle was a diversionary movement and the crossing of a major linear obstacle : a river. Secondly the Berezina was a battle. It was fought on both sides of the river. Understrength corps and divisions of differing worth fought during this battle. Both Victor's and Oudinot's corps were still acceptable. The retreat could carry on without the Berezina turning into the fatal trap that Kutusov wanted it to be. The Berezina was a French victory.

In attempting to extend his fledgling empire eastward into Russia, Napoleon has misjudged both the enemy and the weather. Avoiding direct conflict, the Russian army frustrates his every move with "guerilla" tactics; it seems whichever way he turns, the Russians are lying in wait. As if that weren't enough to contend with, winter has arrived with a vengeance and the French forces are literally freezing to death. Must Napoleon admit defeat or sacrifice still more men to his dream of glory? Whatever he decides, he must cross the Berezina river--and the only bridge is in enemy hands...

In 1812, in order to keep his stranglehold on Europe, Napoleon had no choice but to declare war on the Russian emperor, Alexander. After three months of marching, his men, starved and exhausted, finally made it to Moscow... only to discover that the city had been deserted. Thus Napoleon and his army took up residence in the Russian capital without even the slightest resistance. But by nightfall, Moscow was on fire. Houses, churches and even the Kremlin were ablaze, and the entire French army risked being reduced to ashes. Caught in the trap, Napoleon was forced to leave the city and get back on the road to face his enemy.

September 1812. Napoleon is master of Europe, and strikes at Russia with 600,000 men. He enters Moscow with no resistance, a conqueror at the height of his glory ... and everything crumbles. The first volume of a trilogy.

Two weeks after the Americans, British, and Canadians invaded Western Europe on D-Day, June 6, 1944, the Soviet Union launched Operation Bagration on the Eastern Front, its massive attempt to clear German forces from Belarus. In one of the largest military campaigns of all time, involving 2 million Soviets and 800,000 Germans, the Red Army advanced 170 miles in two weeks and destroyed German Army Group Center. Using recently declassified Soviet documents as well as German and Soviet unit histories, Dunn recounts this landmark operation of World War II.

La ruta en sidecar del famoso aventurero Sylvain Tesson, reproduciendo la retirada de la Grande Armée napoleónica desde Moscú a París. En noviembre del 1892, la Grande Armée napoleónica sufre la derrota más cruenta de su retirada de Rusia: más de 30.000 soldados franceses, víctimas de su patriotismo y los delirios de grandeza de su jefe, pierden la vida a orillas del Berezina. Doscientos años después, Sylvain Tesson resigue la ruta de esa retirada en un viaje de más de 4.000 km en sidecar, acompañado de cuatro amigos y los fantasmas de las víctimas de esa masacre. Esta aventura sirve como pretexto para homenajear a esos soldados que dieron su vida por Francia y reflexionar sobre la figura de Napoleón, la guerra, los conflictos europeos, e incluso sobre la vida.

En octobre 1812, piégé dans Moscou en flammes, Napoléon replie la Grande Armée vers la France. Commence La retraite de Russie, l'une des plus tragique épopée de l'Histoire humaine. La Retraite est une course à La mort, une marche des fous, une échappée d'enfer. Deux cents ans plus tard, je décide de répéter l'itinéraire de l'armée agonisante, de ces cavaliers désarçonnés, de ces fantassins squelettiques, de ces hommes à plumets qui avaient préjugé de l'invincibilité de l'Aigle. Il ne s'agit pas d'une commémoration (commémore-t-on l'horreur ?), encore moins d'une célébration, il s'agit de saluer par-delà les siècles et les verstes, ces Français de l'an XII aveuglés par le soleil corse et fracassés sur les récifs du cauchemar. Le géographe Cédric Gras, le photographe Thomas Goisque et deux amis russes, Vassili et Vitaly, sont de la partie. Pour l'aventure, nous enfourchons des side-cars soviétiques de marque Oural. Ces motocyclettes redéfinissent en permanence les lois élémentaires de la mécanique. Rien ne saurait les arrêter (pas même leurs freins). Notre escouade se compose de trois Oural, chargées ras la gueule de pièces détachées et de livres d'Histoire. Au long de quatre mille kilomètres, en plein hiver, nous allons dérouler le fil de la mémoire entre Moscou et Paris où l'Empereur arrivera le 15 XII 1812, laissant derrière lui son armée en lambeaux. Le jour, les mains luisantes de cambouis, nous lisons les Mémoires du général de Caulaincourt. Le soir, nous nous assommons de vodka pour éloigner les fantômes. A l'aube, nous remettons les gaz vers une nouvelle étape du chemin de croix. Smolensk, Minsk, Berezina, Vilnius : les stèles de la souffrance défilent à cinquante à l'heure. Partout, nous rencontrons des Russes qui ne tiennent aucune rigueur à l'Empereur à bicorne. Sous nos casques crénelés de stalactites, nous prenons la mesure des tourments des soldats et nous menons grand train ce débat intérieur : Napoléon était-il un antéchrist qui précipita l'Europe dans l'abîme ou bien un visionnaire génial dont le seul tort fut de croire qu'il suffisait de vouloir pour triompher, et que les contingences se pliaient toujours aux rêves ? Mais très vite, nous devons abandonner ces questions métaphysiques car un cylindre vient de rendre l'âme, la nuit tombe sur la Biélorussie et trois foutus camions polonais sont déjà en travers de la route.
