| Biko is one of my favorite desserts! This recipe came out tasting better than the biko I buy at the philippino store. Follow these steps to make it authentic: I used only 2 cups of rice (makes plenty) & soaked it for a couple hours in 3 cups water. Make sure you use glutinous rice! Cooked it with half the can of coconut milk and soaking water. |

| <div><div></div><div>Bantu Stephen Biko (18 December 1946 – 12 September 1977) was a South African anti-apartheid activist. Ideologically an African nationalist and African socialist, he was at the forefront of a grassroots anti-apartheid campaign known as the Black Consciousness Movement during the late 1960s and 1970s. His ideas were articulated in a series of articles published under the pseudonym Frank Talk.</div></div> |

Steve Biko inspired a generation of black South Africans to claim their true identity and refuse to be a part of their own oppression. Through his example, he demonstrated fearlessness and self-esteem, and he led a black student movement countrywide that challenged and thwarted the culture of fear perpetuated by the apartheid regime. He paid the highest price with his life. The brutal circumstances of his death shocked the world and helped isolate his oppressors. This short biography of Biko shows how fundamental he was to the reawakening and transformation of South Africa in the second half of the twentieth century—and just how relevant he remains. Biko's understanding of black consciousness as a weapon of change could not be more relevant today to “restore people to their full humanity.” As an important historical study, this book’s main sources were unique interviews done in 1989—before the end of apartheid—by the author with Biko’s acquaintances, many of whom have since died.

During the mid-1960s to the late 1970s, black college students in South Africa became frustrated with apartheid, Bantu education policy, Bantustans, white liberal organizations, and European-branded Christianity. Their anger with white nationalism under apartheid caused them to mobilize, rise up, and fight against systemic oppression for their liberation. The timing was pregnant with purpose for the new generation of leaders to rise since the ANC and PAC were banned, creating an aboveground silence amongst black anti-apartheid revolutionaries. The reader will be lured into the struggle, blood, loss, tears, and victories of blacks fighting against apartheid in South Africa. Readers will learn about the ideology and way of life adopted by black youth known as black consciousness. The book analyzes how students became so devoted in their beliefs and application of the tenets of black consciousness that it was likened to the gospel message. It describes how the teachings of black consciousness were used as psychological weapons of war to liberate the minds of blacks, white liberals, and the white apartheid regime. The primary focus of this book is on the life, message, and journey of BC’s preeminent leader, Steve Biko, who led the radical movement along with his colleagues to empower his people and encourage the nation to seek and possess truer humanity. His message takes center stage while his life takes several unexpected turns as the system hunts him down. However, the most controversial yet surprising component of this work would be the comparison of Biko’s life and death with Jesus’s life and death at Calvary—from the cradle to the grave. Though Biko was not necessarily a professed Christian, his life’s work and message make chilling parallels to the life of Jesus Christ, which are captured here. This book is bound to awaken the soul and mind of the reader as they become raptured in the intersectionality of race, justice, and faith.

On 12th September 1977, Steve Biko was murdered in his prison cell. He was only 31, but his vision and charisma - captured in this collection of his work - had already transformed the agenda of South African politics. This book covers the basic philosophy of black consciousness, Bantustans, African culture, the institutional church and Western involvement in apartheid.

De aanleiding en de achtergronden van de dood tijdens politieverhoren van de leider van de Zuid-Afrikaanse oppositiebeweging Black Consciousness.

Biko was not only considered a 'brilliant political theorist', he is also considered a formidable and articulate philosopher; an important Africana existential philosopher. From Biko's writings, speeches and interviews, Mabogo More's view is that philosophy is not a disembodied system of ideas nor is it a mechanical reflection about the world; rather, it is a way of existing and acting. What Biko himself describes as 'a way of life'. This important perspective on Biko would be of value to many African philosophers, political and social thinkers, social scientists, psychologists, cultural critics, political activists, students, critical race theorists and anyone interested in the ideas that Biko presents.
