This book counteracts the claim that luxury and sustainability are conflicting concepts, and contends that they can successfully co-exist. Discussing key characteristics of luxury such as craftsmanship and preservation of artisan skills, product quality and durability, and limited quantities of luxury goods, the authors argue that luxury brands are inherently sustainable from economic, social and environmental perspectives. Sustainable Luxury Brands gives a comprehensive overview of luxury to demonstrate this claim, also focusing on sustainable luxury from a consumer perspective. It's October 31, the first of the Days of the Dead in Mexico, and Maria Molina and her family are in the graveyard to honor her baby brother Pablo, who died when he was just a few months old. Throughout Mexico, other families are doing exactly the same thing, for the threeday festival of The Days of the Dead is one of Mexico's most important holidays.

Excerpts from the book: ."It may be well for us to take a general view of the subject of Yoga. What is the end and aim of the teachings and the practices? What does it all mean? What is Man seeking for in all these endeavors? What does life, and growth, and development, and evolution mean? These are questions that thinking people are constantly asking, and which but few are able to answer even partially. The Yogi Philosophy teaches that the end of all human endeavor and life is to allow the soul to unfold until it reach with Spirit. And as Spirit is the divine part of man- the bit of God-material in him - this union eventually will result in what is known as Union with God - that is the bringing of the individual soul into conscious touch and union with the centre of all life."

The Expressiveness of the Body meditates on the contrasts between the human body described in classical Greek medicine and the body as envisaged by physicians in ancient China.
