Manual Free is truly applicable to what you as the pilot need to know. The manual is organized first by the main pillars of international flight operations: negotiation, navigation, communications, surveillance, and abnormal procedures. It then presents a tutorial that takes you through the early decision-making processes, an oceanic crossing, and a flight around the world. Finally, it presents a 40-chapter appendix with everything you need to know that wasn't already covered. Topics as basic as how to plot and as esoteric as true course ten-degree tables are all part of the manual. Whether you are new to international operations or have flown internationally your whole career you will find this book to be the most complete resource available today.

Bombardier Experimental Test Pilot Eric Fiore On October 10, 2000, a Challenger 604 experimental test aircraft crashed on takeoff at Wichita's Mid-Continent

Airport, dragging a wing, before turning into a fireball. Barely alive and suffering horrific burns, test pilot Eric Fiore was the only survivor hauled from the wreckage.

He has asked his wife to promise him something. Based on actual events, "Flight through Fire" is an unforgettable love story centered on a deep devotion to aviation. Carol Fiore vividly describes the aftermath of the accident, the response of a

billion dollar company and an entire Kansas town, the intense pressure placed on a hospital, the tragic realities of severe facial burns, the evolution of an eating disorder in her teenage daughter, and the raw emotional pain of her nonreligious family. Deftly interweaving the past and present, the author takes the reader on a wondrous adventure around the world with a complicated and passionate man who was born to be a pilot. Struggling with the horrors of his injuries, she confronts grief without religion, searching for strength in order to keep her promise to him. Insightful, brutally honest, and unexpectedly humorous, this is the story of what it takes to be a test pilot, and what it costs to love one.
