Real Estate Financing contains over 40 deal-specific forms and checklists online, covering everything from complex loan workouts to simple residential closings. The forms include information about each term and how it can be modified, with separate variations for lenders, borrowers or other parties. A "Data Input Sheet" lets you use the forms with widely available software and can serve as a "term sheet" for the transaction. The accompanying volume provides explanations of the issues along with the guidance you need to draft working documents quickly. Real Estate Financing includes: checklists for loan modifications; wraparound mortgage loans; subordinations; loans secured by condos, co-ops and time shares; sale-leasebacks; contingent interests; securitizations; deeds in lieu and consensual foreclosures; participations; installment sales; sales of mortgage loans; and much more. The checklists highlight "deal" terms, flag risks and hot issues, and direct users, through cross-references, to alternative approaches and analysis. Standards issued by ratings agencies for securitized loans are discussed in detail, as are the EPA and ASTM standards for Phase I environmental reports and the best Web sites for forms and drafting requirements. Book looseleaf, one volume, 1,550 pages; published in 1997, updated as needed; no additional charge for updates during your subscription. Looseleaf print subscribers receive supplements.
