This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Intended for introductory and advanced courses in software engineering. The ninth edition of Software Engineering presents a broad perspective of software engineering, focusing on the processes and techniques fundamental to the creation of reliable, software systems. Increased coverage of agile methods and software reuse, along with coverage of 'traditional' plan-driven software engineering, gives readers the most up-to-date view of the field currently available. Practical case studies, a full set of easy-to-access supplements, and extensive web resources make teaching the course easier than ever. The book is now structured into four parts: 1: Introduction to Software Engineering 2: Dependability and Security 3: Advanced Software Engineering 4: Software Engineering Management

Relying on primary sources - personal experience, unpublished material, and conversations and interviews with those directly involved in the 1971 crisis - Zaheer has given a dispassionate and thoroughly-documented account of events on the national and international fronts, culminating in the surrender of the army in East Pakistan on 16 December 1971.

Cheat sheets and other books by "The WeSolveThem.com Team" are designed for the modern college student. We focus on the material that is actually in the courses, give pointers and tips and provide thousands of resources on our website. On WeSolveThem.com students can get top-notch help via video lessons, math print lessons and or handwritten lessons by search previously solved problems or requesting an original problem. WeSolveThem.com -- Education for the modern student

The most comprehensive collection of time-temperature diagrams for nonferrous alloys ever collected. Between this volume and its companion, Atlas of Time Temperature Diagrams for Irons and Steels, you'll find the most comprehensive collection of time-temperature diagrams ever collected. Containing both commonly used curves and out-of-print and difficult-to-find data, these Atlases represent an outstanding worldwide effort, with contributions from experts in 14 countries. Time-temperature diagrams show how metals respond to heating and cooling, allowing you to predict the behavior and know beforehand the sequence of heating and cooling steps to develop the desired properties. These collections are a valuable resource for any materials engineer Both Collections Include: Easy-to-Read Diagrams: Isothermal transformation Continuous cooling transformation Time-temperature precipitation Time-temperature embrittlement Time-temperature ordering

International Financial Management, 7e combines a strong foundation in international finance theory with current, practical applications. It provides thorough, up-to-date treatment of cutting-edge international finance issues along with traditional treatment of international financial management. This book is known for its readability and clear explanation as well as its extensive use of hands-on, real world applications and student-oriented pedagogy.

This guide shows corporate network administrators and small business owners how to plan, implement, and maintain an Internet Commerce Center. "Cyberpreneurs" will obtain the know-how to market, sell, and transact online.

Written by the most well known face of India s IT literacy movement, this book is designed for the first course in C# taken by undergraduate students in Computers and Information Technology. The revised edition maintains the lucid flow and continuity which has been the strength of the book.

Pakistan in the Twentieth Century analyses both the vision and the reality of a South Asian polity. Beginning with an examination of the people and forces that shaped the construction of an independent and predominantly Muslim state within the subcontinent, this historical study describes the events and the work of the many personalities who influenced Pakistan's development in the fifty years following the transfer of power.
