A clean, well-lit workspace with the guitar properly supported. Every adjustment should be done with the guitar tuned to the desired pitch. If the guitar is going to have a new string gauge, you should put them on first and tune up to pitch – the tension difference between gauges is going to make a difference to the adjustments.

~~How to Set Up a Guitar (Perfectly) | Electric Herald~~

A good setup includes checking a guitar's electronics. For amplified acoustics as well as electrics with active pickups, this means a battery check (and, if necessary, replacement). Also, all the nuts and screws that anchor the guitar's electronics should be tightened.
