to trigonometry leave you covered in hives? If so, you are not alone! Every homeschool parent "loses it" at some point during high school math. Lee Binz, The HomeScholar, can help guide the way! Lee's practical advice and gentle encouragement will take your math anxiety down a few notches and give you the confidence to push through the pain so your child can achieve math success. In this book, you will learn how to teach high school math with the correct: sequence, curriculum, attitude, and speed. You will discover curriculum options, learn how to keep great math records, and get beyond mere good intentions to actually get the job done in your homeschool. There's even a special section on how to teach any particularly nerdy kids that might be living under your roof. Here's Why You Need This Book: We are in a golden age of homeschooling. Never in history have there been so many excellent resources to help the mathematically challenged parent teach advanced subjects. "High School Math The Easy Way: Simple Strategies for Homeschool Parents In Over Their Heads" will put these resources and tools at your fingertips and give you proven strategies to not just survive but thrive while teaching high school math. "High School Math The Easy Way" is part of The HomeScholar's Coffee Break Book series. Designed especially for parents who don't want to spend hours and hours reading a 400-page book on homeschooling high school, each book combines Lee's practical and friendly approach with detailed, but easy-to-digest information, perfect to read over a cup of coffee at your favorite coffee shop! Never overwhelming, always accessible and manageable, each book in the series will give parents the tools they need to tackle the tasks of homeschooling high school, one warm sip at a time. Who is Lee Binz and Why Should You Listen to Her? Lee Binz, The HomeScholar, understands what it takes to graduate homeschool students who are fully prepared for college and

Empower students to be the change—join the teaching mathematics for social justice movement! We live in an era in which students have —through various media and their lived experiences— a more visceral experience of social, economic, and environmental injustices. However, when people think of social justice, mathematics is rarely the first thing that comes to mind. Through model lessons developed by over 30 diverse contributors, this book brings seemingly abstract high school mathematics content to life by connecting it to the issues students see and want to change in the world. Along with expert guidance from the lead authors, the lessons in this book explain how to teach mathematics for self- and community-empowerment. It walks teachers step-by-step through the process of using mathematics—across all high school content domains—as a tool to explore, understand, and respond to issues of social injustice including: environmental injustice; wealth inequality; food insecurity; and gender, LGBTQ, and racial discrimination. This book features: Content cross-referenced by mathematical concept and social issues Downloadable instructional materials for student use User-friendly and logical interior design for daily use Guidance for designing and implementing social justice
