Holy Cows and Hog Heaven: The Food Buyer's Guide to Farm ...
Holy Cows and Hog Heaven is written by an honest-to-goodness-dirt-under-the-fingernails, optimistic clean good farmer. His goal is to: Empower food buyers to pursue positive alternatives to the industrialized food system. Bring clean food farmers and their patrons into a teamwork relationship.

Holy Cows and Hog Heaven: The Food Buyer's Guide to Farm ...
Holy Cows and Hog Heaven challenges those who grow food to view it as a biological organism, not a chemical and mechanical one. It invites an exploration of alternative philosophies, creating an effective blend of technology and nature. It also urges producers to focus on serving rather than empire-building.

Holy Cows and Hog Heaven is written by an honest-to-goodness-dirt-under-the-fingernails, optimistic clean good farmer. His goal is to: Empower food buyers to pursue positive alternatives to the industrialized food system Bring clean food farmers and their patrons into a teamwork relationship Marry the best of western technology with the soul of eastern ethics Educate food buyers about productions Create a food system that enhances nature's ecology for future generations Holy Cows and Hog Heaven has an overriding objective of encouraging every food buyer to embrace the notion that menus are a conscious decision, creating the next generation's world one bite at a time. The aging farmer phenomenon is new and presents both unprecedented crisis and opportunity. Opening his heart and life, Joel Salatin uses his Polyface Farm experience to encouraged multi-generational farm relationships and germinate a new generation of young farmers.

From farmer Joel Salatin's point of view, life in the 21st century just ain't normal. In FOLKS, THIS AINT NORMAL, he discusses how far removed we are from the simple, sustainable joy that comes from living close to the land and the people we love. Salatin has many thoughts on what normal is and shares practical and philosophical ideas for changing our lives in small ways that have big impact. Salatin, hailed by the New York Times as "Virginia's most multifaceted agrarian since Thomas Jefferson [and] the high priest of the pasture" and profiled in the Academy Award nominated documentary Food, Inc. and the bestselling book The Omnivore's Dilemma, understands what food should be: Wholesome, seasonal, raised naturally, procured locally, prepared lovingly, and eaten with a profound reverence for the circle of life. And his message doesn't stop there. From child-rearing, to creating quality family time, to respecting the environment, Salatin writes with a wicked sense of humor and true storyteller's knack for the revealing anecdote. Salatin's crucial message and distinctive voice--practical, provocative, scientific, and down-home philosophical in equal measure--make FOLKS, THIS AINT NORMAL a must-read book.

Slaughter and butcher your own animals safely and humanely with this award-winning guide. Providing detailed photography of every step of the process, Adam Danforth shows you everything you need to know to butcher poultry, rabbit, lamb, goat, and pork. Learn how to create the proper slaughtering conditions, break the meat down, and produce flavorful cuts of meat. Stressing proper food safety at all times, Danforth provides expert advice on necessary tools and helpful tips on freezing and packaging. Enjoy the delicious satisfaction that comes with butchering your own meat.

This book describes how the United States can integrate religious considerations into its foreign policy, moving towards a new leadership paradigm that effectively counters the challenge of Islamst extremism. A foreword by retired Marine Corps General Anthony Zinni, former Commander-in-Chief of the U.S. Central Command, U.S. Special Envoy to the Middle East, and member of the CSIS Smart Power Commission. Maps that show areas of interest discussed in the text. Epigraphs throughout the book to provide amplification of important insights

International system of units (Metric system)--and common U.S. unit conversions; Periodic table; on rear end papers.

Advocates the "salad bar beef production model" that is supposed to be "land and farmer friendly."

A lively history of the American beef industry follows the iconic steak from field to table and details the changing world of raising beef cattle, from the early ideal of herds roaming the wilds of the West under the control of cowboys, to the corporate technology used to breed, feed, slaughter, package, and distribute beef today.

In the past few years, organic food has moved out of the patchouli-scented aisles of hippie food co-ops and into three-quarters of conventional grocery stores. Concurrent with this growth has been increased consumer awareness of the social and health-related issues around organic eating, independent farming, and food production. Combining a straight-to-the-point exposé about organic foods (organic doesn't mean fresh, natural, or independently produced) and the how-to's of creating an affordable, easy-touse organic kitchen, Grub brings organics home to urban dwellers. It gives the reader compelling arguments for buying organic food, revealing the pesticide industry's influence on government regulation and the extent of its pollution in our waterways and bodies. With an inviting recipe section, Grub also offers the millions of people who buy organics fresh ideas and easy ways to cook with them. Grub's recipes, twenty-four meals oriented around the seasons, appeal to eighteen- to forty-year-olds who are looking for fun and simple meals. In addition, the book features resource lists (including music playlists to cook by), unusual and illuminating graphics, and every variety of do-it-yourself tip sheets, charts, and checklists.

The definitive food lover's guide to making the right choices amidst a sea of ever-changing information We live in a culture awash with advice on nutrition and eating. But what does it really mean to eat healthy? FoodWISE is for anyone who has felt unsure about how to make the "right" food choices. It is for food lovers who want to be more knowledgeable and connected to their food, while also creating meaningful dining experiences around the table. With more than thirty years of experience in farm and food studies, Gigi Berardi, PhD, shows readers how to make food choices and prepare meals that are WISE: Whole, Informed, Sustainable, and Experience based. She offers practical guidance for how to comb the aisles of your local food market with confidence and renewed excitement and debunks the questionable science behind popular diets and trends, sharing some counterintuitive tips that may surprise you--like the health benefits of eating saturated fat! FoodWISE will revolutionize how you think about healthy, enjoyable, and socially conscious cuisine.
