It's been said that good writers borrow while great writers steal. Writing thieves read widely, dive deeply into texts, and steal bits and pieces from great texts as models for their own writing. Ruth Culham admits to being a writing thief--and she wants you and your students to become writing thieves, too! A major part of good writing instruction is finding the right mentor texts to share with students. Within this book, you'll discover more than 90 excellent mentor texts, along with straight-forward activities that incorporate the traits of writing across informational, narrative, and argument modes. Chapters also include brief essays from beloved writing thieves such as Lester Laminack, David L. Harrison, Lisa Yee, Nicola Davies, Ralph Fletcher, Toni Buzzeo, Lola Schaefer, and Kate Messner, detailing the reading that has influenced their own writing. Ruth's renowned easy-going style and friendly tone make this a book you'll turn to again and again as you guide your students to reach their full potential as deep, thoughtful readers and great writers. There's a writing thief in each of us when we learn how to read with a writer's eye!

Stacey Shubitz and Lynne Dorfman warmly welcome you to experience writing workshop for the first time or in a new light with Welcome to Writing Workshop. Through strategic routines, tips, resources, and short focused video clips, teachers can create the sights and sounds of a thriving writing workshop where: \* both students and teachers are working authors \* students spend most of their time writing--not just learning about it \* student choice is encouraged to help create engaged writers, not compliant ones \* students are part of the formative assessment process \* students will look forward to writing time--not dread it. From explanations of writing process and writing traits to small-group strategy lessons and minilessons, this book will provide the know-how to feel confident and comfortable in the teaching of writers.

In clear language, Fletcher and Portalupi explain the simple principles that underlie the writing workshop and explore the major components that make it work.
