"Tells the story of migrants and communities in the Southeast Asian borderlands. The Black Flags raided their way from southern China into northern Vietnam, competing in the second half of the nineteenth century against other armed migrants and uplands communities for control of commerce (e.g., opium) and natural resources (e.g., copper for making coins). At the edges of empires--the Qing empire in China, the Vietnamese empire governed by the Nguyen dynasty, and, eventually, French colonial Vietnam--the Black Flags and their rivals sustained networks of power and dominance through the framework of political regimes. The history of these imperial bandits and the communities that resisted them demonstrates the plasticity of borderlines, the limits of imposed boundaries, and the flexible division between apolitical banditry and political rebellion in the borderlands of China and Vietnam. Historical studies of these areas tend to examine events only from the perspective of local communities or from the anxious view of imperial officials. By focusing on the Black Flags, upland communities, and their relationships to various empires, this study illustrates borderland processes at the violent edges of empire. It contributes to the ongoing reassessment of borderland areas as frontiers for state expansion, arguing that projects of empire often were instruments of power for armed migrants and their allies, and that, as a setting for forms of human activity that defy tight boundaries, borderlands continued to exist well after the establishment of formal boundaries"--

This promises to be the only book on sheep you will ever need! Packed full of detailed information, The Sheep Book for Smallholders covers every aspect of keeping sheep on a small scale. Beginning with a brief overview of the sheep industry, and the rise and fall of the artisan shepherd, the author has logically divided the book up into the shepherd's calendar, so that the sheep keeper knows what to expect with each season. All aspects of looking after the flock are covered, including selection, culling, nutrition, housing, lambing, grassland management, ailments and prevention. There are also sections on home slaughter and butcher, and, uniquely, processing the byproducts, including the fleece and keeping sheep for dairying. Unusually, the book also has a section on training sheepdogs. Supported by stunning photography and clear illustrations, as well as huge and useful appendices. This is a welcome addition to the smallholder's bookshelf, and is going to be a reference classic in years to come.

Focuses on organisational goals and those of other stakeholders and society at large. This book provides an insight into the potential benefits and pitfalls, expectations and concerns of advancing a critical view of HRD in practice. It is intended for lecturers, students and practitioners who are aching for a critical analysis.

As a final installment in a military career wrought with horrid events, Jess is sent to rescue a Braugh warrior and his men from prison. All she wants is to be safely on her home planet to forget her throwback status and find a normal existence. The warrior's intimidating size and raw strength contrast with his tender nature, skillful lips and gentle touch, awakening sexual urges she thought had been stripped away years prior. Shane knows the piercings adorning Jess' body once created pain and taught her to suppress arousal and desire. And he knows what's needed to take her beyond the torture. But providing a sexual release may prove easier than convincing her something stronger lies between them. All he needs to claim his angel, in every way, is her consent.

It's all very well going out and approaching 1000 girls, but if you're not mentally prepared then it will be obvious to the women you interact with and you will get more blowouts than you do blowjobs. This section will give you all the tools that I use and that many of the best players in the world employ with great success. The third section, by far the longest, is all about 'Outer Game'.
