En este libro la autora propone al Deporte y la Actividad Física (DAF), como una herramienta eficaz que podrá implementarse por los líderes y administradores dentro de las organizaciones –públicas o privadas–, con la finalidad de mejorar la calidad de vida y el bienestar físico-emocional de los recursos humanos. En este sentido, se demuestra que contribuye al desarrollo organizacional, la sustentabilidad, la competitividad, a la generación de valor y al efecto positivo sobre las economías en general, entre otros beneficios.

Esta obra persigue ser una herramienta práctica y didáctica que permita la confección de un completo plan de internacionalización empresarial, desde la planificación estratégica y operativa, desarrollado de un modo sistemático y gradual que permita a cualquier interesado, incluso sin formación previa, confeccionar su propio plan y aportando el conocimiento necesario para abordar los mercados exteriores y planificar el acceso a los mismos. Adquirir un conocimiento sobre cuestiones básicas, operadores intervinientes, instituciones de apoyo a la internacionalización, y conocer los métodos de reflexión y planteamiento estratégico y operativo supondrá una gran ventaja competitiva frente a nuestros competidores, minimizando riesgos y garantizando el éxito en las operaciones internacionales. Toda la obra gira sobre la posibilidad de desarrollar el plan de internacionalización usando la información, estadísticas, servicios, publicaciones y herramientas de gestión que son accesibles vía online. En definitiva, esta obra debe ser capaz de despejar sus temores y constituir con el seguimiento de los pasos indicados, una vía para emprender la internacionalización de su empresa con garantías de éxito. Índice Presentación.- Introducción a la internacionalización empresarial.- El plan de internacionalización de la empresa.- Visión estratégica del plan de internacionalización.- Visión operativa del plan de internacionalización.- Esquema final del plan de internacionalización y su correcta implementación en la empresa.- Claves para el éxito de la empresa en el proceso de internacionalización empresarial.- Bibliografía.

Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals

Ethnozoology: Animals In Our Lives represents the first book about this discipline, providing a discussion on key themes on human-animal interactions and their implications, along with recent major advances in research. Humans share the world with a bewildering variety of other animals, and have interacted with them in different ways. This variety of interactions (both past and present) is investigated through ethnozoology, which is a hybrid discipline structured with elements from both the natural and social sciences, as it seeks to understand how humans have perceived and interacted with faunal resources throughout history. In a broader context, ethnozoology, and its companion discipline, ethnobotany, form part of the larger body of the science of ethnobiology. In recent years, the importance of ethnozoological/ethnobiological studies has increasingly been recognized, unsurprisingly given the strong human influence on biodiversity. From the perspective of ethnozoology, the book addresses all aspects of human connection, animals and health, from its use in traditional medicine, to bioprospecting derivatives of fauna for pharmaceuticals, with expert contributions from leading researchers in the field. Draws on editors’ and contributors’ extensive research, experience and studies covering ethnozoology and ethnobiology Covers all aspects of human-animal interaction through the lens of this emerging discipline, with coverage of both domestic and wild animal topics Presents topics of great interest to a variety of researchers including those in wildlife/conservation (biologists, ecologists, conservationists) and domestic-related disciplines (psychologists, sociologists)

This publication, Keys to Soil Taxonomy, Twelfth Edition, 2014, coincides with the 20th World Congress of Soil Science, to be held on Jeju Island, Korea in June 2014. The Keys to Soil Taxonomy serves two purposes. It provides the taxonomic keys necessary for the classification of soils in a form that can be used easily in the field. It also acquaints users of soil taxonomy with recent changes in the classification system. The twelfth edition of the Keys to Soil Taxonomy incorporates all changes approved since the publication in 1999 of the second edition of Soil Taxonomy: A Basic System of Soil Classification for Making and Interpreting Soil Surveys.
