This book explores important aspects of the American Civil War from the perspective of Capital Hill.

This text provides total instruction in welding, other joining processes, and cutting that takes students from elementary procedures to technician skills. Based on the recommendations of the American Welding Society and other authorities, this text is accurate and thorough. Both the principles (why) and practice (how to) are presented for gas, arc, and semi-automatic welding, brazing, soldering, and plastic welding processes. The text offers comprehensive treatment of equipment, electrodes, types of joints and welds, testing and inspection, metals and their welding characteristics, safety, and print reading. Photographs and drawings show the latest techniques and equipment. Course outlines are provided for each major process with emphasis on learning by doing.

Welding Technology Fundamentals covers the equipment and techniques associated with the welding and cutting processes most widely used in industry today. These processes include: oxyfuel gas welding and cutting, shielded metal arc welding, gas metal arc welding, flux cored arc welding, gas tungsten arc welding, and resistance welding. Technical information regarding weld inspection and testing, welder qualification, drawing interpretation, and welding symbols is also included. The text is organized into eight sections, which can be studied independently or in sequence. Written in easy-to-understand format, this text is extensively illustrated and includes many tables and charts for selecting the variables required to make a good weld.

Not just an accountant is an incisive, no-holds-barred account of Indias eleventh comptroller and auditor general and a symbol of the anti-corruption movement, Vinod Rai. Through a narrative, rich in anecdote and inside information, Rai sheds light on the major scams that shook the country. Among the case studies-chosen for the diversity of failures they highlight are - the procedural irregularities in the issuance of licenses for second generation spectrum allotment, the last minute quick-fixes in the conduct of the XIX commonwealth games, the loss of national resources while allocating coal blocks, the flouting of systems and the clear display of crony capitalism in the exploration of hydrocarbon and the tragic tale of civil aviation in India. Through these illustrations, Rai wishes to not only expose government malfeasance, but also probe the mandate of the CAG as a watchdog. Equally, he hopes to push for long-term solutions to corruption and bring home the urgent need for ethics-for the pursuit of excellence, accountability, probity and transparency within governments, the bureaucracy, corporate enterprises and public life. Interesting facts A blow-by-blow, explosive, yet thoughtful account that sheds new light on the scams that shook India - 2G, coalgate, civil aviation, the conduct of the XIX commonwealth games and hydrocarbon contracts. Explodes the myth of accountability in contemporary Indian governance. Written by the eleventh CAG of India and a symbol of the anti-corruption movement, Vinod Rai. Presents long-term solutions for the future, so as to contain procedural irregularities within the government and corporate enterprises. Provides a roadmap for good governance, important for the growth of the nation. Exhorts younger professionals / administrators to strive for excellence.

This book evaluates the latest developments in nickel alloys and high-alloy special stainless steels by material number, price, wear rate in corrosive media, mechanical and metallurgical characteristics, weldability, and resistance to pitting and crevice corrosion. Nickel Alloys is at the forefront in the search for the most economic solutions to c
