Super is his first adult book although he has written several books for children.

### Naive. Super: Loe, Erlend, Solberg, Tor Ketil ...

Loe's strikingly spare prose enables him to deal with these issues in their purest sense, subtly guiding you through his beliefs without overtly stating what those beliefs are. This is a motif also present in Naive. Super. and one which Loe handles with assurance.

### Naive. Super. and Doppler by Erlend Loe - Litro Magazine

Synopsis Troubled by an inability to find any meaning in his life, the 25-year-old narrator of this deceptively simple novel quits university and eventually arrives at his brother's New York apartment. In a bid to discover what life is all about, he writes lists. He becomes obsessed by time and whether it actually matters.

### Naive. Super by Erlend Loe, Tor Ketil Solberg | Waterstones

Loes style of writing perfectly complements and, in fact, mirrors the narrators style of stilted and isolated action. He writes in simple sentences and provides seemingly insignificant details of the narrators world. More importantly, the narrators thoughts are often disconnected, random, impulsive -- just like his life.

### Bookslut | Naive. Super by Erland Loe

adapted for the stage by Kurt Engh The adaptation of Erlend Loe's 1995 Norwegian cult novel "Naive.

### Naive. Super - Theater Performances - Norway House

Buttigieg, now the mayor of South Bend, Indiana, and a Presidential candidate, stumbled across the English translation of a 1996 novel called " Naive. Super," by Erlend Loe. The book, a best-seller...

Troubled by an inability to find any meaning in his life, the 25-year-old narrator of this deceptively simple novel quits university and eventually arrives at his brother's New York apartment. In a bid to discover what life is all about, he writes lists. He becomes obsessed by time and whether it actually matters. He faxes his meteorologist friend. He endlessly bounces a ball against the wall. He befriends a small boy who lives next door. He yearns to get to the bottom of life and how best to live it. Funny, friendly, enigmatic and frequently poignant - superbly naive.

Troubled by an inability to find any meaning in his life, the 25-year-old narrator of Naive. Super quits university in an attempt to discover a raison d'etre. He recounts a series of anecdotes, which culminate in a trip to stay with his brother in New York. He writes lists. He becomes obsessed by time and whether it actually matters. He befriends a small boy who lives next door. He yearns to get to the bottom of life and how best to live it.

It's as if Wallace Stevens had been Norwegian, writing in prose and born fifty years later. Erlend Loe's deceptively simple novel is a highly original meditation on existence and a strange mixture of wisdom and naivety. Troubled by an inability to find any meaning in his life, the 25-year-old first-person narrator quits his MA course at university in a bid to discover a raison d'etre. He recounts a series of anecdotes, which culminate in a trip to stay with his brother in New York. He writes lists. He becomes obsessed by time and whether it actually matters. He yearns to get to the bottom of life and how best to live it.

Joseph Conrad, W. Somerset Maugham, and Anthony Burgess have shaped our perceptions of Malaysia. In Tash Aw, we now have an authentic Malaysian voice that remaps this literary landscape. The Harmony Silk Factory traces the story of textile merchant Johnny Lim, a Chinese peasant living in British Malaya in the first half of the twentieth century. Johnny's factory is the most impressive structure in the region, and to the inhabitants of the Kinta Valley Johnny is a hero—a Communist who fought the Japanese when they invaded, ready to sacrifice his life for the welfare of his people. But to his son, Jasper, Johnny is a crook and a collaborator who betrayed the very people he pretended to serve, and the Harmony Silk Factory is merely a front for his father's illegal businesses. This debut novel from Tash Aw gives us an exquisitely written look into another culture at a moment of crisis. The Harmony Silk Factory won the 2005 Whitbread First Novel Award and also made it to the 2005 Man Booker longlist.

From the bestselling author of Doppler, a wry and very funny look at the pitfalls of human existence ... and the charms of celebrity chef Nigella Lawson. Aspiring playwright Bror Telemann loves all things British. His wife, Nina, loves everything German. So a family holiday at the foot of the Alps, south of Munich – which Bror believes to be the birthplace of Nazism – is bound to cause tension. Especially when Bror spends the whole time virtually stalking (and constantly fantasizing about) his greatest obsession, British chef Nigella Lawson. Can Telemann continue to bear the pressure of his empty existence? Or will his long-suffering family be the first to snap?

A Guardian Book of the Year and Chapters/Indigo Best Book A bestseller in Scandinavia -- Doppler is the enchanting, subversive, and very unusual story about one man and his moose. This beguiling modern fable tells the story of a man who, after the death of his father, abandons his home, his family, his career, and the trappings of civilization for a makeshift tent in the woods where he adopts a moose-calf named Bongo. Or is it Bongo who adopts him? Together they devote themselves, with some surprising results, to the art of carefree living. Hilarious, touching, and poignant in equal measure -- you will read it with tear-stained cheeks and sore sides -- Doppler is also a deeply subversive novel and a strong criticism of modern consumer culture.

Nobel Prize-winner Jose Saramago's brilliant new novel poses the question -- what happens when the grim reaper decides there will be no more death? On the first day of the new year, no one dies. This of course causes consternation among politicians, religious leaders, morticians, and doctors. Among the general public, on the other hand, there is initially celebration--flags are hung out on balconies, people dance in the streets. They have achieved the great goal of humanity: eternal life. Then reality hits home--families are left to care for the permanently dying, life-insurance policies become meaningless, and funeral parlors are reduced to arranging burials for pet dogs, cats, hamsters, and parrots.Death sits in her chilly apartment, where she lives alone with scythe and filing cabinets, and contemplates her experiment: What if no one ever died again? What if she, death with a small d, became human and were to fall in love?

A very funny, illustrated chapter book about how Kurt stops being the nicest man in the world. Kurt is a truck driver. He's been a truck driver for many years. Almost ever since he was a boy. He's always been a very kind man, until... One day Kurt rescues a man who sleepwalks off the pier, and he gets rewarded with a diamond as big as a football. But what use is a diamond? Kurt sells it and gets 50 million dollars. With all that money, it is perhaps not surprising that Kurt turns evil.

Featuring extensive revisions to the text as well as a new introduction and epilogue--bringing the book completely up to date on the tumultuous politics of the previous decade and the long-term implications of the Soviet collapse--this compact, original, and engaging book offers the definitive account of one of the great historical events of the last fifty years. Combining historical and geopolitical analysis with an absorbing narrative, Kotkin draws upon extensive research, including memoirs by dozens of insiders and senior figures, to illuminate the factors that led to the demise of Communism and the USSR. The new edition puts the collapse in the context of the global economic and political changes from the 1970s to the present day. Kotkin creates a compelling profile of post Soviet Russia and he reminds us, with chilling immediacy, of what could not have been predicted--that the world's largest police state, with several million troops, a doomsday arsenal, and an appalling record of violence, would liquidate itself with barely a whimper. Throughout the book, Kotkin also paints vivid portraits of key personalities. Using recently released archive materials, for example, he offers a fascinating picture of Gorbachev, describing this virtuoso tactician and resolutely committed reformer as "flabbergasted by the fact that his socialist renewal was leading to the system's liquidation"--and more or less going along with it. At once authoritative and provocative, Armageddon Averted illuminates the collapse of the Soviet Union, revealing how "principled restraint and scheming self-interest brought a deadly system to meek dissolution." Acclaim for the First Edition: "The clearest picture we have to date of the post-Soviet landscape." --The New Yorker "A triumph of the art of contemporary history. In fewer than 200 pagesKotkin elucidates the implosion of the Soviet empire--the most important and startling series of international events of the past fifty years--and clearly spells out why, thanks almost entirely to the 'principal restraint' of the Soviet leadership, that collapse didn't result in a cataclysmic war, as all experts had long forecasted." -The Atlantic Monthly "Concise and persuasive The mystery, for Kotkin, is not so much why the Soviet Union collapsed as why it did so with so little collateral damage." --The New York Review of Books

They are Microserfs--six code-crunching computer whizzes who spend upward of sixteen hours a day "coding" and eating "flat" foods (food which, like Kraft singles, can be passed underneath closed doors) as they fearfully scan company e-mail to learn whether the great Bill is going to "flame" one of them. But now there's a chance to become innovators instead of cogs in the gargantuan Microsoft machine. The intrepid Microserfs are striking out on their own--living together in a shared digital flophouse as they desperately try to cultivate well-rounded lives and find love amid the dislocated, subhuman whirl and buzz of their computer-driven world.
