There ' s a horse called Tornado Warning that ' s winning all the races, with times faster than anyone ' s ever seen. What could this mean? Emily, Joel, Paelen, Pegasus, and the sphinx Alexis return to Earth to investigate—and discover a CRU plot to clone Olympians and Nirads using DNA retrieved from their previous time in the human realm. The CRU has already created dozens of Nirad warriors, Dianas, Paelens, Cupids, and Pegasuses. Now they want to create their own Emily clone—even if the original is killed in the process. Can Emily and her friends put a stop to the CRU ' s plans before Jupiter finds out and carries through on his own threat to destroy the Earth?

Just as Emily is getting used to life as the Flame of Olympus, news from the human world disrupts the peace ... There's been a Pegasus spotting on Earth. Emily and her friends are determined to find out the truth before Jupiter of Olympus gets involved and fly back to the human world to investigate. Their new mission takes them through the Nevada desert from Area 51 to Las Vegas where they discover a sinister conspiracy. Emily is convinced that they will trace it back to their old enemies - the corrupt governmental agency, the CRU. But what they find is bigger and more dangerous than they ever expected and will pit Olympian against Human in a war of epic proportions. With the fate of two worlds in her hands, Emily must make an impossible choice, otherwise everything she has ever known and loved will be destroyed. Join Emily astride the magnificent winged-stallion, Pegasus, as she embarks on a new flight of adventure through worlds both old and new. '

Emily and her winged horse, face an ancient challenge of Olympic proportions in this fourth book of the exciting Pegasus series. A deadly plague has struck Olympus. While the Olympians fade one by one, Emily ' s heart breaks as she watches, particularly when Pegasus begins to slip away. Determined to save him, she embarks on an investigation that takes her back in time to the origins of Olympus and to the deadly battle between the Olympians and the Titans. In the present, she must face the force of the CRU. In the past, she must confront Cronus, the father of the gods and leader of the Titans, who is intent on destroying his offspring. When Emily encounters the full power of the flame and a discovery that could change the face of history, will she make the right decisions? And in the race against time to save Pegasus, will Olympus find its true hero?

Thirteen-year-old Emily's life is transformed when Pegasus, the mythological winged horse, crashes onto the roof of her building during a New York City blackout and takes her to Olympus where she faces monsters, a corrupt governmental agency, and the quest to keep the Olympic flame burning.

Emily is contending with great changes, including diminished powers, but goes to London to rescue Agent B and others from the CRU, where she makes horrible discoveries about the agency's history.

Moving to Jupiter's palace on Mount Olympus with her friends after being recognized as the Flame, Emily resolves to save her father from the CRU prison and sneaks away from Jupiter with her winged horse and her crush, Cupid, only to become entangled in a new invasion by the Nirads.

Their next adventure takes them to London where old enemies are preparing for a final showdown. This paperback boxed set includes all six titles: The Flame of Olympus Olympus at War The New Olympians Origins of Olympus Rise of the Titans The End of Olympus

A group of kids must stop invaders before they take over Titus—and the rest of the universe—in this first book in a brand-new series from bestselling Pegasus author Kate O’Hearn, who masterfully blends mystery and mythology together. Fifteen years ago, Olympus was destroyed and the Olympians were resettled on Titus. Since then Earth has been declared a quarantined world. Neither Titans nor Olympians are allowed to visit and under no circumstances are humans allowed on Titus. The Titans and Olympians are keeping the peace. But the deep-seated mistrust still lingers, so when a human ends up on Titus, he could be the spark that reignites the war... Astraea is a Titan, granddaughter of Hyperion, and now a reluctant student at the brand-new school, Arcadia. She just knows that it’s going to be awful, and that there is no way that Titans and Olympians will ever get along! At least she’s got her best friend, a winged-horse named Zephyr, to keep her company. Then the night before the first day of school, Astraea hears her parents discussing something terrifying: a human has been spotted on Titus. But that’s not possible. All routes to Earth via the Solar Stream have been closed—no one can travel between the two worlds...or can they? When Astraea and Zephyr get detention on their first day—for fighting with a centaur—they’re sent to the orchards to harvest nectar. There they discover a human boy named Jake. How he got to Titus is a mystery even to him. But Astraea and Zephyr know they have to get Jake home before anyone else discovers him. But what the trio uncovers is something much bigger than one misplaced human boy. It’s a scheme to take down the rulers of this world, conquer it, and then do the same across the galaxy. Can a group of kids stop the invaders? Or is Titus, like Olympus before it, doomed?

Embark on legendary adventures with a winged horse, a girl, and the gods of Olympus with the first three books of the Pegasus series, now together in a collectible boxed set. In *The Flame of Olympus*, when an injured Pegasus lands on the roof of Emily’s Manhattan apartment building, she is drawn into a war between the gods of Olympus and the warrior Nirads. Then in *Olympus at War*, Emily is living on Mt. Olympus, but her father is being held by a secret government agency called the CRU—so she plans to sneak back to New York to save him. And in *The New Olympians*, Emily, Joel, Paelen, Pegasus, and the sphinx Alexis return to Earth to investigate strange rumors surrounding an amazing racehorse called Tornado Warning.
