Steel is both blessed and cursed with a remarkable photographic memory--just one look and whatever he sees is imprinted for keeps. Trying to be a good Samaritan on the train, he instead becomes embroiled in an ingenious, international plot of kidnapping and bribery that may have links to terrorists. Federal agents (first seen in Pearson's adult thriller, *Cut and Run*) track Steel and his new-found science geek accomplice, Kaileigh Augustine, as they attempt to put together the pieces of a complex puzzle. Using Steel's science contest invention--and with the help of Cairo--Steel and Kaileigh lead readers on an action-packed chase adventure as they attempt to prevent the unimaginable, before it's too late.
