Improving teaching is the key to genuine and sustainable school improvement. Improvement involves persuading teachers to change and develop their practice but, as anyone who has ever tried will testify, this is far from easy. The focus of *Tweak to Transform* is what head teachers and school leaders can do to manage the change process and improve the quality of teaching in a school. Essentially, *Tweak to Transform* is a practical handbook that seeks to address three questions. What do we know about change? What do we know about learning? What do we know about leading and managing the improvement process? While there is no single successful recipe for improving teaching in a school, this book attempts to establish some key principles. The result is a collection of thoughts, activities strategies and models that have been developed and successfully implemented in a wide range of schools. >

What does it take to be a good school principal? No two principals work exactly the same way, but research shows that effective principals focus on a core set of factors critical to fostering success among all students. In this second edition of *Qualities of Effective Principals*, James H. Stronge and Xianxuan Xu delineate these factors and show principals how to successfully balance the needs and priorities of their schools while continuously developing and refining their leadership skills. Throughout the book, the authors provide practical tools and extensive research that will help principals * Assess, exhibit, and harness instructional leadership to meet a school's goals. * Foster and sustain an effective school climate for learning. * Select, support, and retain high-quality teachers and staff. * Manage school resources effectively and efficiently. * Create, maintain, and strengthen internal and external community relationships. * Define their role in student achievement. This book also includes practical skills checklists, along with quality indicators and red flags for effective leadership. *Qualities of Effective Principals, 2nd Edition*, is an excellent resource for both experienced and new principals committed to developing and leading strong schools that help all students succeed.
