Performance-based assessments allow classroom teachers an alternative to traditional multiple-choice tests. We often use fill-in-the bubble assessments in education to determine the readiness of students. However, in the 21st-century workplace, these types of tests fail to truly prepare students. How many times in the real world are we called upon to take a multiple-choice test? In the real world, we are called upon to prove our merit through performance-based assessments, displaying our 21st-century skills. We should be preparing students for this in the classroom. Performance-Based Assessment for 21st-Century Skills makes the argument that teachers should use performance-based assessments in the classroom. It guides the educator step by step to show how he or she can create performance-based assessments for students, including what they look like, teaching students how to create them, setting the proper classroom environment, and how to evaluate them.

Performance-Based Assessment for Middle and High School Physical Education, Second Edition, breaks down the complex topic of assessments and shows you how to develop assessments that will help you and your students work together to enhance the instructional process in physical education. The authors describe the various types of performance-based assessments and show how to integrate assessments into fitness education and physical education, using numerous models that can be adapted to your own situation. The authors provide a wealth of tools for assessing students according to local, state, and NASPE standards while helping students reach their goals. The text is supported by a Web site that includes a test package, a presentation package with PowerPoint slides, an instructor guide, and a CD-ROM that includes additional forms and assessments.

Performance-based assessments can provide an adequate and more direct evaluation of teaching ability. As performance-based assessments become more prevalent in institutions across the United States, there is an opportunity to begin more closely analyzing the impact of standardized performance assessments and the relationship to variables such as success entering the workforce, program re-visioning for participating institutions, and the perceptions and efficacy of teacher candidates themselves. Performance-Based Assessment in 21st Century Teacher Education is a collection of innovative research that explores meaningful and engaging performance-based assessments and its applications and addresses larger issues of assessment.

including the importance of a balanced approach of assessing knowledge and skills. The book also offers tangible structures for making strong connections between theory and practice and offers advice on how these assessments are utilized as data sources related to preservice teacher performance. While highlighting topics including faculty engagement, online programs, and curriculum mapping, this book is ideally designed for educators, administrators, principals, school boards, professionals, researchers, faculty, and students.
