Written by leading teledermatologists and telemedicine experts, this hands-on guide addresses the practical needs of the many emerging teledermatology services worldwide. It covers the medical and technical prerequisites for such services as well as the photographic imaging essentials. It also illustrates the performance of teledermatology by means of clinical examples, discusses teledermatology in underdeveloped countries, and presents specialized methods of teledermatology. The impact of telemedicine on the doctor-patient relationship is explored, and the advantages that accrue from improving access to expert knowledge are

explained. In addition, quality assurance, legal assumptions, economic aspects, and the future horizons of such health care services are all considered. A comprehensive appendix provides information on training opportunities, sample protocols, consent forms, information sheets, references, and relevant web links.

This is the first monograph dedicated to contemporary artist TR Ericsson (b. 1972), who with conceptual rigor and emotional directness uses the archives chronicling his family's painful past to explore the healing powers of commemoration and memory. He grapples with these archival materials' power to define both the past and future, even as they vanish slowly with time. In a poignant family chronology in text and images, Ericsson includes many photographs of his mother--whose suicide at age 57 was a traumatic turning point in his life and career--along with related photographs, documents, writings, film stills, and artifacts dating back to the 1930s. Two scholarly essays set Ericsson's work into its artistic and broader cultural context. The complete publication is both a guide to the artist's work and an inspired chronicle of several generations of a Midwestern family, evoking universal themes of love and loss.

In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.
