The author focuses on parties generally described as lying on the far right in academic literature and examines their development from 2000 until 2010. The book provides a detailed analysis of the historical legacy essential in understanding the overall context of nationalism in the region as well as an overview of the far right political parties in each country. It discusses parties individually, detailing their ideological features, strategy, internal organisation and leadership, and compares their political, social, economic, ethno-cultural and international characteristics. It reveals the main factors that were influential in the successes and failures of the far right, and offers a comparison between the typical far right voter living in the Balkans and his counterpart in Western Europe. The implementation and enforcement of legislature such as hate speech laws is also examined, along with other legal issues affecting the extremist parties in the region.
