"Substantially the book that devotees of the director have been waiting for: a full-length critical work about Ozu's life, career and working methods, buttressed with reproductions of pages from his notebooks and shooting scripts, numerous quotes from co-workers and Japanese critics, a great many stills and an unusually detailed filmography."—Sight and Sound Yasujiro Ozu, the man whom his kinsmen consider the most Japanese for all film directors, had but one major subject, the Japanese family, and but one major theme, its dissolution. The Japanese family in dissolution figures in every one of his fifty-three films. In his later pictures, the whole world exists in one family, the characters are family members rather than members of a society, and the ends of the earth seem no more distant than the outside of the house.

Acclaimed crime writer Kent Anderson's "fiercely authentic and deeply disturbing" police novel, following a Vietnam veteran turned cop on the meanest streets of 1970s Portland, Oregon (Los Angeles Times). Two kinds of cops find their way to Portland's North Precinct: those who are sent there for punishment, and those who come for the action. Officer Hanson is the second kind, a veteran who survived the war in Vietnam only to decide he wanted to keep fighting at home. Hanson knows war, and in this battle for the Portland streets, he fights not for the law but for his own code of justice. Yet Hanson can't outrun his memories of another, warmer battleground. A past he thought he'd left behind, that now threatens to overshadow his future. An enemy, this time close to home, is prying into his war record. Pulling down the shields that protect the darkest moments of that fevered time. Until another piece of his past surfaces, and Hanson risks his career, his sanity—even his life—for honor.
