Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and

Mobility as a Service (MaaS) is a new mobility concept gaining pace in many cities around the world. Its value proposition concerns integration of mobility services which is realized by providing trip planning and one-stop fare purchase for the user through a single platform. The MaaS vision is being enabled by advances in intelligent systems, the internet of things, cloud technology and big data management. This MaaS paper introduces and explains the MaaS concept (Chapter 1) and presents the MaaS enablers (Chapter 2 on Digital Enabler, Chapter 3 on Car-sharing and Chapter 4 on Bike-sharing) and MaaS application challenges (Chapter 5 on MaaS cost, risk and revenue challenges and Chapter 6 on MaaS infrastructure challenges). This paper was issued as Transport Trends and Economics 2018-2019 activity of the Economic Commission for Europe Working Party on Transport Trends and Economics.

Life has gotten a bit boring for Zuria Johnston, and with the exception of her Friday nights out with her best, flamboyant friend, Chase, and her job as a guidance counselor, she seems to have hit a rut. After a rough break-up with her longtime boyfriend, Manuel, her prospects of finding a man also seem pretty bleak. That is, until she connects with her poetic crush, Amir, and he opens her eyes to a world of romance and passion that she didn't know existed. She discovers what it feels like to be loved as a real woman should, and to overcome the difficulties of being a young, strong, black woman who is afraid to have her heart broken for a second time. The thrill of new romance seems to fill the emptiness in her life, but her old life isn't as easy to escape as she first thought. Mistakes that she thought she had left behind threaten to undo everything that she has begun to build in this new chapter of her life, but she isn't the only one battling the demons of her past. The poetic and passionate Amir harbors some dark secrets of his own, and when the truth begins to come out, the connection between her two lovers, old and new, may end her short reign of happiness before it ever fully begun. With love from one man and sworn vengeance from another, Zuria is trapped in the middle, trying desperately to make her way through the

tangled troubles of family, love, and happiness. The problem is, she might lose more than the man of her dreams. As this complex and spellbinding story reaches its peak, Zuria will have to risk mind, body, and soul for herself and the people she loves, but will that final risk mean achieving the life she'd always dreamed of? Or will she end up making the ultimate sacrifice?

Delivering comprehensive coverage of current domestic and global trends, **TRANSPORTATION: A SUPPLY CHAIN PERSPECTIVE**, 8E equips readers with a solid understanding of what is arguably the most critical - and complex - component of global supply chains. Taking a managerial approach, the text explains the fundamental role and importance of transportation in companies and in society, as well as the complex environment in which transportation service is provided today. It provides a framework and foundation for the role of transportation from a micro and macro perspective in supply chains. It also offers an overview of the operating and service characteristics, cost structure, and current challenges faced by current providers of transportation. In addition, the authors spotlight a variety of critical transportation management issues, providing insightful discussions of the strategic activities and challenges involved in the movement of goods through the supply chain. Completely up to date, the Eighth Edition features new readings, cases, and examples. It emphasizes global topics throughout, includes new coverage of hard and soft technology, and offers expanded discussions of fuel, energy, managerial, economic, and environmental issues.
