In kindergartens all over the world, storytime is often one of the favourite parts of the day. Stories connect us to each other, give a sense of who we are, and guide us into the future. Stories are vital for healthy child development.This new collection of over eighty stories from the members and friends of the Waldorf Early Childhood Association of North America is a treasure-trove for preschool children. In this book you'll find stories for special occasions as well as everyday enjoyment, which will nourish and inspire.

Family storytelling offers many of the same advantages as book reading - and some new ones - for children's language and emotional development, coping skills, and sense of belonging. Tell Me a Story: Sharing Stories to Enrich Your Child's World shows parents how telling and sharing stories about family experiences can help children grow into healthy, happy adolescents and adults. Dr. Elaine Reese outlines the techniques that work best with children of all ages, from toddlers to teens, including children with learning delays and difficult temperaments. She also tackles challenging issues such as whether children profit at all from the stories that they experience through TV, movies, and video games; how storytelling differs from daughters to sons; and the best ways to continue to share family stories with children after a separation or divorce. Finally, Reese shares tips specially designed for storytelling with grandchildren, demonstrating how parents can and should continue to nurture family storytelling long after their children are grown, and especially once their children become parents themselves. Providing guidance on a positive, portable, and free way to enrich children's development, Tell Me a Story deserves a place in every parent's library.

" Tell Me A Story is breathtakingly tender, heartbreakingly true...The best memoir I 've read. " — Mary Alice Monroe, New York Times bestselling author of The Beach House Reunion Bestselling author Cassandra King Conroy considers her life and the man she shared it with, paying tribute to her husband, Pat Conroy, the legendary figure of modern Southern literature. Cassandra King was leading a quiet life as a professor, divorced " Sunday wife " of a preacher, and debut novelist when she met Pat Conroy. Their friendship bloomed into a tentative, long-distance relationship. Pat and Cassandra ultimately married, ending Pat's long commutes from coastal South Carolina to her native Alabama. It was a union that would last eighteen years, until the beloved literary icon ' s death from pancreatic cancer in 2016. In this poignant, intimate memoir, the woman he called King Ray looks back at her love affair with a natural-born storyteller whose lust for life was fueled by a passion for literature, food, and the Carolina Lowcountry that was his home. As she reflects on their relationship and the eighteen years they spent together, cut short by Pat ' s passing at seventy, Cassandra reveals how the marshlands of the South Carolina Lowcountry ultimately cast their spell on her, too, and how she came to understand the convivial, generous, funny, and wounded flesh-and-blood man beneath the legend—her husband, the original Prince of Tides.

Do you know what makes a story great? All the best stories have a few things in common. First, we need the voice of a narrator or a storyteller. Then, add interesting characters, throw them into a risky setting, and get ready for a good dose of conflict. Give those characters a purpose or goal, and that's then the real action begins. Story is our calling. It is also the next generation ' s best chance of identifying with the Church and changing the world. As we become storytellers, we learn to see the world in terms of stories being lived and told. We discover deeper insights into God, ourselves, and others. God ' s story is happening. We are right in the middle of a page-turner—and God is in it with us. Start seeing your life as a part of God ' s story and make some great adventures happen right now!

How are our memories, our narratives, and our intelligence interrelated? What can artificial intelligence and narratology say to each other? In this pathbreaking study by an expert on learning and computers, Roger C. Schank argues that artificial intelligence must be based on real human intelligence, which consists largely of applying old situations - and our narratives of them - to new situations in less than obvious ways. To design smart machines, Schank therefore investigated how people use narratives and stories, the nature and function of those narratives, and the connection of intelligence to both telling and listening. As Schank explains, "We need to tell someone else a story that describes our experiences because the process of creating the story also creates the memory structure that will contain the gist of the story for the rest of our lives. Talking is remembering." This first paperback edition includes an illuminating foreword by Gary Saul Morson.

A gifted storyteller presents an inspirational anthology of thirty-two modern fables for all ages that shed new light on human nature, our quest for spiritual fulfillment, and the world in which we live.
