These volumes are print compilations of of the popular online comic The Order of the Stick! plus pages of never-before-seen bonus stories and material. Taking place in a magical world that loosely operates by the rules of 3.5 edition Dungeons and Dragons, the comic follows the sometimes farcical exploits of six adventurers as they strive to save the world from an evil lich. Much of the comic's humor stems from these characters either being aware of the game rules that affect their lives or having anachronistic knowledge of modern culture, which in turn is often used by the author to parody various aspects of role-playing games and fantasy fiction.

Here comes the sixth volume of The Order of the Stick, the fantasy-comedy webcomic that everyone agrees gets longer with each book released! In Utterly Dwarfed, the Order is on their way north to save the world in style, thanks to their new friends on a cool pirate airship. Little do they suspect that while they deal with monsters and the usual plot stuff, one of their own is facing a battle inside their own mind! (It's Durkon, obviously.) And when the gods themselves start taking a closer interest in Roy's band of misfit heroes, this action-packed adventure ends up having repercussions so big, we couldn't fit them on the page! With almost five years of comics, this mammoth collection is our longest book yet (not counting the previous one). Made in the USA.

The fourth compilation of the popular stick figure webcomic, The Order of the Stick, this book sees the heroes struggling to reunite after their crushing defeat in the last book.
