If the church is to thrive in the twenty-first century, it will have to take on a new form as it ministers to the 120 million unchurched people in the United States. *Planting Growing Churches for the 21st Century* is still virtually the only available text on church planting in North America and beyond. In this third edition, readers will find material on the importance of healthy, biblical change in our churches, updated appendixes, insight on our postmodern ministry context, and strategies for reaching new population demographics such as Generations X and Y. Pastors, ministry leaders, and church planters will find the information and advice found in this book invaluable as they carry out their ministries.

How do we find and contact pastoral candidates? What background information do we need to know about pastoral candidates? What do we need to consider when developing a salary and benefit package for a new pastor? Each year several thousand churches face questions like these as they search for new pastors. To help make the process easier to help avoid costly mistakes, Dr. Henry Virkler has organized a comprehensive, step-by-step plan to guide search committees through the intricacies of selection procedures in *Choosing a New Pastor*. Dr. Virkler employs a transdenominational approach as he:

- identifies twenty-one mistakes that pastor nominating committees make and suggests alternative steps to take;
- steers churches through the phases of transition, from saying good-bye to the old pastor to orienting the new one;
- proposes guidelines for conflict resolution when pastor and congregation disagree;
- plus, it includes sample information forms, interview forms, and letters.

This complete guide to pastoral selection will successfully guide you through the process both efficiently and effectively.
