### The Professor and the Madman (2019) - IMDb

Inspired by a true story, The Professor and the Madman is a compelling historical drama.

### The Professor and the Madman (2019) - Rotten Tomatoes

The Professor and the Madman is a 2019 biographical drama film directed by Farhad Safinia (under the pseudonym P. B. Shemran), from a screenplay by Safinia and Todd Komarnicki based on the 1998 book The Surgeon of Crowthorne (published in the United States as The Professor and the Madman) by Simon Winchester.

### The Professor and the Madman (film) - Wikipedia

The Professor and the Madman tells the story of Dr W.C. Minor, a Victorian murderer who became one of the most important contributors to the Oxford English Dictionary, posting his work to the editor of that dictionary from his cells in Broadmoor. Minor was spared the noose after the court had decided - rightly - that he was insane.

The Professor and the Madmanis an extraordinary tale of madness, genius, and the incredible obsessions of two remarkable men that led to the making of the Oxford English Dictionary—and literary history. The making of the OED was one of the most ambitious projects ever undertaken.

The Professor and the Madman

New York Times Bestseller Simon Winchester’s classic about the making of the Oxford English Dictionary—soon to be a major motion picture starring Sean Penn and Mel Gibson. The making of the Oxford English Dictionary was one of the most ambitious projects ever undertaken. As definitions were collected, the overseeing committee, led by Professor James Murray, was stunned to discover that one man, Dr. W. C. Minor, had submitted more than ten thousand. But their surprise would pale in comparison to what they were about to discover when the committee insisted on honoring him. For Dr. Minor, an American Civil War veteran, was also an inmate at an asylum for the criminally insane. Masterfully researched and eloquently written, The Professor and the Madman is an extraordinary tale of madness, genius, and the incredible obsessions of two remarkable men that led to the making of the Oxford English Dictionary—and literary history. “The linguistic detective story of the decade.... Winchester does a superb job of historical research.”—William Safire, New York Times Magazine

The Professor and the Madman, masterfully researched and eloquently written, is an extraordinary tale of madness, genius, and the incredible obsessions of two remarkable men that led to the making of the Oxford English Dictionary -- and literary history. The compilation of the OED began in 1857, it was one of the most ambitious projects ever undertaken. As definitions were collected, the overseeing committee, led by Professor James Murray, discovered that one man, Dr. W. C. Minor, had submitted more than ten thousand. When the committee insisted on honoring him, a shocking truth came to light: Dr. Minor, an American Civil War veteran, was also an inmate at an asylum for the criminally insane. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

"We visit the ugly corrugated iron structure that Murray grandly dubbed the Scriptorium -- the Scrippy or the Shed, as locals called it -- and meet some of the legion of volunteers, from Fitzedward Hall, a bitter hermit obsessively devoted to the OED, to W.C. Minor, whose story is one of dangerous madness, ineluctable sadness, and ultimate redemption. The Meaning of Everything is a scintillating account of the creation of the greatest monument ever erected to a living language. Simon Winchester’s supplle, vigorous prose illuminates this dauntingly ambitious project -- a seventy-year odyssey to create the grandfather of all word-books, the world’s unrivaled uber-dictionary. Book jacket."--Jacket.

This audio also includes a conversation between Simon Winchester and John Simpson, editor of the Oxford English Dictionary

One of Library Journal’s 10 Best Books of 2015 Following his acclaimed Atlantic and The Men Who United the States, New York Times bestselling author Simon Winchester offers an enthralling biography of the Pacific Ocean and its role in the modern world, exploring our relationship with this imposing force of nature. As the Mediterranean shaped the classical world, and the Atlantic connected Europe to the New World, the Pacific Ocean defines our tomorrow. With China on the rise, so, too, are the American cities of the West coast, including Seattle, San Francisco, and the long cluster of towns down the Silicon Valley. Today, the Pacific is ascendant. Its geological history has long transformed us—tremendous earthquakes, volcanoes, and tsunamis—but its human history, from a Western perspective, is quite young, beginning with Magellan’s sixteenth-century circumnavigation. It is a natural wonder whose most fascinating history is currently being made. In telling the story of the Pacific, Simon Winchester takes us from the Bering Strait to Cape Horn, the Yangtze River to the Panama Canal, and to the many small islands and archipelagos that lie in between. He observes the fall of a dictator in Manila, visits aboriginals in northern Queensland, and is jailed in Tierra del Fuego, the land at the end of the world. His journey encompasses a trip down the Alaska Highway, a stop at the isolated Pitcairn Islands, a trek across South Korea and a glimpse of its mysterious northern neighbor. Winchester’s personal experience is vast and his storytelling second to none. And his historical understanding of the region is formidable, making Pacific a paean to this magnificent sea of beauty, myth, and imagination that is transforming our lives.

This "amusing and elegantly written" romp takes readers on a wild ride through the life of Robert Parkin Peters (The New York Times Book Review)—a liar, bigamist, and fraudulent priest who tricked some of the brightest minds of his generation. One day in November 1958, the celebrated historian Hugh Trevor–Roper received a curious letter. It was an appeal for help, written on behalf of a student at Magdalen College, with the unlikely claim that he was being persecuted by the Bishop of Oxford. Curiosity piqued, Trevor–Roper agreed to a meeting. It was to be his first encounter with Robert Parkin Peters: plagiarist, bigamist, fraudulent priest, and imposter extraordinaire. The Professor and the Parson is a witty and charming portrait of eccentricity, extraordinary narcissism, and a life as wild and unlikely as any in fiction. Motivated not by money but by a desire for prestige, Peters lied, stole, and cheated his way to academic positions and religious posts from Cambridge to New York. Frequently deported, and even more frequently discovered, he left a trail of destruction including seven marriages (three of which were bigamous) and an investigation by the FBI. "I was captivated from start to finish by this utterly mad, and wholly delightful story of chicanery and fantasy, and which involves a man who relentlessly duped our most cherished institutions of godly pursuit and higher learning. Plus I learned how to defrock a priest, always good to have on hand in these troubling times." —Simon Winchester, author of The Perfectionists

Unleashed by ancient geologic forces, a magnitude 8.25 earthquake rocked San Francisco in the early hours of April 18, 1906. Less than a minute later, the city lay in ruins. Bestselling author Simon Winchester brings his inimitable storytelling abilities to this extraordinary event, exploring the legendary earthquake and fires that spread horror across San Francisco and northern California in 1906 as well as its startling impact on American history and, just as important, what science has recently revealed about the fascinating subterranean processes that produced it—and almost certainly will cause it to strike again.

This unique and celebrated biography describes how a largely self-educated boy from a small village in Scotland entered the world of scholarship and became the first editor of the Oxford English Dictionary and a great lexicographer. It also provides an absorbing account of how the dictionary was written, the personalities of the people working on it, and the endless difficulties that nearly led to the whole enterprise being abandoned. "It is a magnificent story of a magnificent man, one of the finest biographies of the twentieth century, as its subject was one of the finest human beings of the nineteenth." --Anthony Burgess "A moving and dramatic story . . . sometimes tragic, often comic, ultimately triumphant." --Times (London) "A biography that possesses many of the virtues of James Murray himself--grace, humor, intelligence, curiosity, and scholarship." --Time "In her vivid biography, Murray's granddaughter brings his remarkable personality to life, and provides an unexpectedly fascinating account of the OED's long and difficult birth." --Times Literary Supplement "A gripping, engaging story; endearing, too. The daily round of a big Victorian family, with its jokes, games, and treasured seaside holidays, is entrancingly evoked." --Sunday Times (London)

From praising dictators to alienating allies, Trump has made chaos his calling card. Has his strategy caused more problems than it solved? Richard Nixon tried it first. Hoping to make communist bloc countries uneasy and thus unstable, Nixon let them think he was just crazy enough to nuke them. He called this "the madman theory." Nearly half a century later, President Trump has employed his own "madman theory," sometimes intentionally and sometimes not. Trump praises Kim Jong-un and their "love notes," admires and flatters Vladimir Putin, and gives a greenlight to Recep Tayyip Erdogan to invade Syria. Meanwhile, he attacks US institutions and officials, ignores his own advisors, and turns his back on US allies from Canada and Mexico to NATO to Ukraine to the Kurds at war with ISIS. Trump is willing to make the nation's most sensitive and consequential decisions while often ignoring the best information and intelligence available to him. He continually catches the world off guard, but is it working? In *The Madman Theory*, Jim Sciutto shows how Trump's supporters assume he has a strategy for long-term success – that he is somehow playing three-dimensional chess. Now that we are four years into his presidency, we can see his unpredictable focus on short-term headlines has in fact lead to predictably mediocre results in the short and long run. Trump's foreign policy has undermined American values and national security interests, while hurting allies who have been on our side for decades, leaving them isolated and vulnerable without American support. Meanwhile, he comforts and emboldens our enemies. The White House's revolving door of staff demonstrates that Trump has no real plan; all serious policymakers—and those who would be a check on his most destructive impulses—have been exiled or jumped ship. Sciutto has interviewed a wide swath of current and former administration officials to assemble the first comprehensive portrait of the impact of Trump's erratic foreign policy. Smart, authoritative, and compelling, *The Madman Theory* is the definitive take on Trump's calamitous legacy around the globe, showing how his proclivity for chaos is creating a world which is more unstable, violent, and impoverished than it was before.
