Mark Frost, co-creator of both the original *Twin Peaks* and *The Return*, is often lost in the shadow of co-creator David Lynch in the eyes of critics and scholars—one newspaper even called him the "Other Peak." In fact, Frost played at least as crucial a role in developing the narrative, mythology, and aesthetic of what has come to be revered as one of the most artful and influential shows ever to air on television. This book, comprising a series of interviews

with Frost over the course of a single year, finally and fully acknowledges the extent of Frost's contributions not only to those series, but also to American television in general, as a writer/producer on Hill Street Blues and other shows, and as a mentor to numerous other writers. The book traces the arc of his entire life and career, from his boyhood days in New York, Los Angeles, and Minneapolis, to his nascent playwriting career in Pittsburgh, to his days as a writer at Universal TV's famed factory of the seventies, to his work on Hill Street Blues alongside such industry titans as Steven Bochco and David Milch, to his multiple collaborations with the famously enigmatic Lynch. Conversations with Mark Frost " deconstructs that legendary partnership, while at the same time exploring Frost's values, influences, thematic preoccupations, and approach to creating art — for the screen, the stage, and the printed page — as well as his thoughts about such topics as politics, extraterrestrial life, ethics, and the future of the human race. The book is presented in Q+A form, so that readers get to hear all this from Frost himself. So pull up a chair at the Double R and grab some coffee, pie, and conversation.

Beginning with Lost Highway, director David Lynch " swerved " in a new direction, one in which very disorienting images of the physical world take center stage in his films. Seeking to understand this unusual emphasis in his work, noted Lynch scholar Martha Nochimson engaged Lynch in a long conversation of unprecedented openness, during which he shared his vision of the physical world as an uncertain place that masks important universal realities. He described how he derives this vision from the Holy Vedas of the Hindu religion, as well as from his layman ' s fascination with modern physics. With this deep insight, Nochimson forges a startlingly original template for analyzing Lynch ' s later films—the seemingly unlikely combination of the spiritual landscape envisioned in the Holy Vedas and the material landscape evoked by quantum mechanics and relativity. In David Lynch Swerves, Nochimson navigates the complexities of Lost Highway, The Straight Story, Mulholland Drive, and Inland Empire with uncanny skill, shedding light on the beauty of their organic compositions; their thematic critiques of the immense dangers of modern materialism; and their hopeful conceptions of human potential. She concludes with excerpts from the wide-ranging interview

in which Lynch discussed his vision with her, as well as an interview with Columbia University physicist David Albert, who was one of Nochimson ' s principal tutors in the discipline of quantum physics.
