Unbearable Weight: Feminism, Western Culture, and the Body

The Flight to Objectivity is considered a classic of feminist philosophy. Unbearable Weight, a University of California Press best seller and the first book to draw attention to the profound role of cultural images in the spread of eating problems across race and class, is widely cited, anthologized and used in courses throughout the disciplines. Named a Notable Book of 1993 by the New York Times, it received a Distinguished Publication Award from the Association for Women In Psychology.

Susan Bordo | Gender & Women's Studies

In her essay, Unbearable Weight: Feminism, Western Culture, and The Body, Bordo centers on the complexly and densely institutionalized system of values and practices within which girls and women come to believe they are nothing unless they are trim, tight, lineless, bulgeless, and sagless.

Unbearable Weight: Feminism, Western Culture, and the Body Paperback – Jan. 1 2004 by Susan Bordo (Author), Leslie Heywood (Foreword) 4.3 out of 5 stars 17 ratings

Unbearable Weight: Feminism, Western Culture, and the Body

"Unbearable Weight is brilliant. From an immensely knowledgeable feminist perspective, in engaging, jargonless (!) prose, Bordo analyzes a whole range of issues connected to the body—weight and weight loss, exercise, media images, movies, advertising, anorexia and bulimia, and much more—in a way that makes sense of our current social landscape—finally! This is a great book for anyone who wonders why women's magazines are always describing delicious food as 'sinful' and why there is a cake called Death by Chocolate. Loved it!"—Katha Pollitt, Nation columnist and author of Subject to Debate: Sense and Dissents on Women, Politics, and Culture (2001)

In this Tenth Anniversary Edition, Susan Bordo examines how women's fantasies of transcending their material existence have led to narcissistic efforts to reinvent themselves. Infatuated with youth, surrounded by homogenous representations of beauty, they surrender themselves to plastic surgeons in ever greater numbers for larger breasts, smaller noses, collagen-plumped lips and wrinkle-free faces. The author's preface brings the book up to date in 2003 and Leslie Heywood's foreword places Susan Bordo's work in the front ranks of the research on women and their bodies.

Considering everything from Nike ads, emaciated models, and surgically altered breasts to the culture wars and the O.J. Simpson trial, Susan Bordo deciphers the hidden life of cultural images and the impact they have on our lives. She builds on the provocative themes introduced in her acclaimed work Unbearable Weight—which explores the social and political underpinnings of women's obsession with bodily image—to offer a singularly readable and perceptive interpretation of our image-saturated culture. As it becomes increasingly difficult to distinguish between appearance and reality, she argues, we need to rehabilitate the notion that not all versions of reality are equally trustworthy. Bordo writes with deep compassion, unnerving honesty, and bracing intelligence. Looking to the body and bodily practices as a concrete arena where cultural fantasies and anxieties are played out, she examines the mystique and the reality of empowerment through cosmetic surgery. Her brilliant discussion of sexual harassment reflects on the Clarence Thomas/Anita Hill controversy as well as the film Disclosure. She suggests that sexuality, although one of the mediums of harassment, is not its essence, and she calls for the recasting of harassers as bullies rather than sex fiends. Bordo also challenges the continuing marginalization of feminist thought, in particular the failure to read feminist work as cultural criticism. Finally, in a powerful and moving essay called "Missing Kitchens"—written in collaboration with her two sisters—Bordo explores notions of bodies, place, and space through a recreation of the topographies of her childhood. Throughout these essays, Bordo avoids dogma and easy caricature. Consistently, and on many levels, she demonstrates the profound relationship between our lives and our theories, our feelings and our thoughts.

The Flight to Objectivity offers a new reading of Descartes' Meditations informed by cultural history, psychoanalytic and cognitive psychology, and feminist thought. It focuses not on Descartes' arguments as timeless, culturally disembodied events, but on the psychological drama and imagery of the Meditations explored in the context of the historical instability of the seventeenth century and deep historical changes in the structure of human experience. The study includes textual and cultural material that together comprise a gradually unfolding psychocultural reading of the Meditations. Descartes' famous doubt, and the ideal of objectivity which conquered that doubt, are considered as philosophical expressions of a cultural drama of parturition from the medieval universe, a process that generated new forms of experience, new cultural anxieties, and ultimately, new strategies for control and mastery of an utterly changed and alien world. Themes that figure prominently in recent literature on seventeenth-century philosophy and science—the birth of the mind as mirror of nature, and the masculine nature of modern science, the death of nature—are explored with reference to Descartes as a pivotal figure in the birth of modernity.

The modern struggle against fat cuts deeply and pervasively into American culture. Dieting, weight consciousness, and widespread hostility toward obesity form one of the fundamental themes of modern life. Fat History explores the meaning of fat in contemporary Western society and illustrates how progressive changes, such as growth in consumer culture, increasing equality for women, and the refocusing of women's sexual and maternal roles have influenced today's obsession with fat. Brought up-to-date with a new preface and filled with narrative anecdotes, Fat History explores fat's transformation from a symbol of health and well-being to a sign of moral, psychological, and physical disorder.

Contributors are Susan Bordo, Stanley Clarke, Erica Harth, Leslie Heywood, Luce Irigaray, Genevieve Lloyd, Mario Moussa, Eileen O'Neill, Adrianna Paliyenko, Ruth Perry, Mario S& á enz, Karl Stern, Thomas Wartenberg, and James Winders.

Gossip is easy. Get to the deeper truth, with this in-depth look at the political forces and media culture that vilified and ultimately brought down Hillary Clinton in the 2016 presidential campaign. The Destruction of Hillary Clinton is an answer to the question many have been asking: How did an extraordinarily well-qualified, experienced, and admired candidate—whose victory would have been as historic as Barack Obama's—come to be seen as a tool of the establishment, a chronic liar, and a talentless politician? In this masterful narrative of the 2016 campaign year and the events that led up to it, Susan Bordo unpacks the Rights' assault on Clinton and her reputation, the way the left provoked suspicion and indifference among the youth vote, the inescapable presence of James Comey, questions about Russian influence, and the media's malpractice in covering the candidate. Urgent, insightful, and engrossing, The Destruction of Hillary Clinton is an essential guide to understanding the most controversial presidential election in American history.

This biography reconstructs the life of the second wife of Henry VIII, drawing on scholarly studies and critical analysis to define an English queen who has been alternately viewed as a whore, martyr, feminist icon and cautionary tale over the centuries.

This work comprises a collection of influential readings in feminist theory. It is divided into four sections: "Reading the Body"; "Bodies in Production"; "The Body Speaks"; and "Body on Stage".

A bold, unconventional cultural exploration of the male body and its current place in the Western World examines contemporary perspectives on masculinity in everything from Playboy to Michael Jordan to the recent Viagra craze.
