The explosion of reality TV shows, like American Idol, has begun to breed a whole new generation of singers (or at least people who think they can sing.) With the book "Be the next singing sensation..." Dr. Oh takes songwriting to the next level. After reading, anyone will believe they can sing and write meaningful lyrics. Providing over 90 lyrical templates ranging from Americana to Pop to Rap and Rock, Dr. Oh gives in depth analysis of the state of modern music. Singers are free to begin their musical careers by simply filling in the templates - and have the luxury of an automatic top 40 song. In this clever satire, Dr. Oh not only gives you the templates to success in the music industry, he also gives numerous examples - all of which are based on real songs. You can just copy and use the "musical mad libs" right out of the book. You are virtually guaranteed to be an overnight success. Just read and follow the book!

Each week thousands of Christians will sing "Amazing Grace" at church, paying lip service to one of the most phenomenal aspects of Christianity, yet walking away untouched by its magnitude. They pay mental assent to the concept, but their hearts are untouched. In the author's words, "God's grace is amazing, abundant, free, and available. So why is spiritual famine an epidemic both inside and outside the church? Because although we've come to Christ by recognizing grace, few of us have carried it along as essential equipment on the Christian path. . . . God never promised a pain-free life, but he did promise that his grace is all we need in our search for peace and fulfillment." *Breathing Grace* is a unique look at a topic that stands at the very core of the Christian faith. Dr. Harry Kraus, best-selling author and practicing surgeon, reveals the gospel of grace through a series of medical metaphors, predominantly the physiology of our need for and utilization of oxygen. The clinical flavor of the book brings to life a subject that many Christians have failed to grasp and incorporate into their daily lives, illustrating our need, God's provision, and the moment-by-moment inflow and exhalation of grace to a starving world. *Breathing Grace* includes study questions for group and individual use.
