The series attracts single or co-authored volumes from authors researching at the cutting edge of this dynamic field of interdisciplinary enquiry. The titles range from books that make such developments accessible to the non-specialist reader to those which explore in depth their relevance for the way language is to be conceived as a subject, and how courses and classroom activities are to be designed. As such, these books not only extend the field of applied linguistics itself and lend an additional significance to its enquiries, but also provide an indispensable professional foundation for language pedagogy and its practice. The scope of the series includes: second language acquisition bilingualism and multi/plurilingualism language pedagogy and teacher education testing and assessment language planning and policy language internationalization technology-mediated communication discourse-, conversation-, and contrastive-analysis pragmatics stylistics lexicography translation

This volume critically reviews the most prominent issues in language teaching today and relates them to general perspectives on the nature of language and of language teaching and learning.

This text goes back to basics by investigating fundamental assumptions about the way English should be defined and taught as a foreign language. It looks at different attitudes to English teaching, and critically examines proposals for course content.

This book develops a rational approach to the teaching of language as communication, based on a careful consideration of the nature of language and of the language user's activities. It will stimulate all language teachers to investigate the ideas that inform their own practice.

This is an introduction to linguistics, the study of human language. The author provides a succinct but lucid outline of the ways in which language has been defined, described, and explored, and guides readers towards further exploration of their own.

First published in 1976. Routledge is an imprint of Taylor & Francis, an informa company.

Providing an introduction, this work contains sections on the British Empire.

This volume focuses on how far the policies, principles and practices of foreign language teaching and learning are, or can be, informed by theoretical considerations and empirical findings from the linguistic disciplines. Part I deals with the nature of foreign language learning in general, while Part II explores issues arising from linguistic, socio-political, cultural and cognitive perspectives. Part III and IV then consider the different factors that have to be taken into account in designing the foreign language subject and the various approaches to pedagogy that have been proposed. Part V finally addresses questions concerning assessment of learner proficiency and the evaluation of courses designed to promote it. Key features: provides a state-of-the-art description of different areas in the context of foreign language communication and learning presents a critical appraisal of the relevance of the field offers solutions to everyday language-related problems with contributions from renowned experts
